Dixie Demo Hurdle Slows Humphrey in Veep Contest

Middle-of-Road Platform to Be Okayed by Demos

By JOHN CHADWICK
ATLANTIC CITY, N.J. (AP)—A middle-road platform that largely reflects President Johnson's desire not to rock the boat goes before the Democratic National Convention tonight. Approval is expected, with no floor fight in prospect over any of the planks.

Members of the platform committee finished their work late Monday, turning out a document that for the most part affirms present administration policies and promises to improve and expand them rather than break new ground.

The chairman, House Democratic Leader Carl Albert of Oklahoma, said that although there were some differences

within the committee over specific planks, the final action on the platform was unanimous.

"We go united to the convention, and I expect it to accept our recommendations without any floor fights," he told newsmen.

On the three issues that Republicans battled over at their convention last month—civil rights, extremism and control of nuclear weapons—the Democratic platform drafters drew clear-cut issues for the coming campaign.

The Republicans, adhering to the wishes of Sen. Barry Goldwater, their presidential candidate, were silent on "extremism" and control of nuclear arms. But not the Democrats.

"We condemn extremism, whether from the right or left, including the extreme tactics of such organizations as the Ku Klux Klan and the John Birch Society," the Democratic platform says.

As for nuclear weapons, it declares that control over their use must continue to rest solely in the hands of the President.

On the divisive civil rights issue, the Democrats wrote a plank that the Southerners on the platform committee said they could go along with and that one of them, Pierre Pelham of Alabama, called "something of a victory for the South."

It declares that "the Civil Rights Act of 1964 deserves and requires full observance by every American and fair, effective enforcement if there is any default."

Albert said this means that if the comprehensive antidiscrimination measure is not complied with, it will be enforced.

The Republican platform avoided use of the word "enforce" but pledged "full implementation and faithful execution" of the new law, which Goldwater voted against on the ground that two of its key sections are unconstitutional.

However, the Republicans promised to support improvements in existing civil rights statutes to meet changing needs and any additional measures necessary to prevent unlawful discrimination.

ATLANTIC CITY, N.J. (AP)—President Johnson was reported hesitating today over the possible choice of Sen. Hubert H. Humphrey as his running mate because of Southern opposition.

The Democratic National Convention, heading into its second formal session with the issue of seating a Mississippi delegation unsolved, still had no word from its White House headquarters about the President's preference for a vice-presidential nominee.

Minnesota's Humphrey, who was everywhere doing everything he could to prevent any incident that would mar the unity that Johnson wanted achieved, was the consensus choice by leading Democrats for the place. But individually and collectively they conceded they don't have an inkling of Johnson's thinking.

Some dissent to the choice of Humphrey had been communicated to Johnson, lending credence to reports that he still had not made up his mind despite the relatively late hour.

Gov. Carl Sanders of Georgia, on whom Johnson has been leaning heavily in his efforts to salvage part of the South in the November election, said in an interview he had told Johnson at a White House conference Saturday he thought Sen. Eugene McCarthy would be a "safe" choice.

School District to Permit Staff to Enter Politics

The board of School District 3 (Windsor - Security) voted Monday night by a three to two decision to allow instruction and administrative personnel on leave to run for part-time political office.

The vote came near the end of a long meeting and went like this: Chairman Clarence Foster and Carl Roberts and Ted Forde in favor, and Rodger Fay and Thomas Slack opposed.

The district does not at this time have any such persons seeking part-time political office, but adopted the idea as an amendment to its policies guide for future use.

Roberts introduced the amendment which was seconded by Forde for "discussion purposes."

Roberts explained that he had in mind primarily people who might seek to run as candidates to the state assembly. The other members agreed that such a job could be considered part-time, but that such jobs as county commissioner or being a member of the U.S. Congress would be considered full-time.

The district is the only one in the county to have such a provision, as far as anyone at the meeting was aware.

The amendment pertaining to political office stated:

"No employee on tenure shall be prohibited from running for any elective public office or from holding part-time elective public office while currently remaining an employee of the district."

"Such an employee must, however, notify the district board of education in person of his intent to seek public office."

"In cases where the employee shall be elected to part-time public office his annual salary shall be paid, as in the case of jury duty, and the employee shall remit his public office salary to the district. The employee's annual increment shall not be affected."

The reference to jury duty was to a preceding paragraph that stated:

"Personnel called as jurors, witnesses, or for other duties which are the legal responsibilities of citizens shall be considered as fully employed in their normal capacities in the district enjoying all the benefits thereof, although they shall be factually absent."

"Any extra-district remuneration paid such an employee must, however, be remitted to the district."

Roberts, himself a professional at teacher — being head of the political office stated:

Rapid Boost in Springs Building Permits Seen

City of Colorado Springs building permits have now exceeded the total for all of 1963 and are rapidly closing the gap on the 1962 all-time construction record of \$24,455,873.

So far this year, according to figures in the City Inspections Department, the building permit total stands at the \$24.3 million mark. The 1963 total for the entire year was \$23,751,816.

The August total got a big boost at mid-month when a \$2,944,750 permit was issued for an addition to St. Francis Hospital.

But since that time, nearly \$900,000 more in permits have been issued.

Biggest permit in that \$900,000

was one for \$71,000 to Thomas Louie for a restaurant at 903 S. 8th St., with Vrooman Construction being the general contractor.

Another sizeable permit was one for \$65,000 issued to Heating and Plumbing Engineers for a warehouse and office at 407 E. Fillmore St.

Most of the rest of the permits issued since the one for the St. Francis Hospital addition have been for new homes.

With any luck at all in the last week of August, the monthly total should exceed \$5 million and a new construction record established — with still four months left to go in the year.

Peak Highway Travelers Near Quarter Million

Pikes Peak Highway tolls are 8,200 ahead of the same date last year, according to Jack Sullivan, road superintendent.

The 3,000 a day average so far in August has pushed the highway tolls past the 213,000 mark so far this season.

It is doubtful if the average can be maintained throughout the month, however, as there appeared to be a "trailing-off" Monday, although 2,200 had gone through the toll gate by 1:30 p.m.

High point of the season usually occurs on the second Tuesday in August, and this year was no exception; there were 3,894 visitors on Aug. 11.

Sullivan is hopeful that the tourist business holds up so that last year's toll mark of 251,000 can be exceeded this year.

Houston Reports 179 Cases of Encephalitis

HOUSTON, Tex. (AP)—Houston has recorded 179 suspected encephalitis cases and the city health officer says a possibility exists that a major epidemic may occur.

Seventeen deaths have been attributed to the disease in the last 30 days.

As the number of suspected cases grew, the geographical spread of the disease—carried by mosquitoes—widened over the city.

"There is nothing like the concentration toward the center of the city that we saw in the early reports," Dr. C. A. Pigford, city health officer, said.

Free insecticides were to be distributed to all citizens at the city's fire stations today for use on private premises. Spraying and fogging of public areas was stepped up.

Mayor Louie Welch asked citizens to take their own containers to the closest fire station for the free insecticide and instructions on how to use it.

The city also prepared to buy a new fogging machine. Reinforcement of mosquito-control crews arrived and Dr. Pigford appealed to the county's medical men for information on their cases of encephalitis, popularly known as sleeping sickness, and meningitis.

Dr. Pigford explained that the additional 79 cases, reported since the presence of the disease became known last Friday, were reported largely by private physicians.

Nation's Largest Railroad System Merger Approved

WASHINGTON (AP)—An examiner has recommended that the Interstate Commerce Commission approve the unification of five railroads into the nation's largest system — nearly 25,000 miles.

The proposal approved Monday by examiner Robert H. Murphy calls for the merger of four lines — the Great Northern Railway, the Northern Pacific Railway, the Chicago, Burlington & Quincy Railroad and the Pacific Coast Railroad — and a 10-year lease on the Spokane, Portland and Seattle Railway.

It approved by the full commission.

Meat Imports Will Be Kept Below Mark

WASHINGTON (AP) — Meat imports will be kept 15 per cent below last year's record level under a bill signed by President Johnson Saturday.

The bill sets a basic import limit of 725,400,000 pounds per year of fresh, chilled or frozen beef, goats and sheep, except lambs. A 16 per cent estimated growth factor is added and a 10 per cent leeway is allowed for foreign nations selling such meat to the United States.

This means that imports would have to reach about 913 million pounds next year to trigger the imposition of quotas.

The new law gives the President power to suspend the limitations if he decides it is in the national interest.

English Is Used In Catholic Mass at Meet

By TOM PENDERGAST

ST. LOUIS, Mo. (AP) — Joseph Cardinal Ritter, host prelate for the 25th annual National Liturgical Week, sees today's opening session as publicizing changes being made in Roman Catholic worship without disturbing doctrine.

Key feature of the four-day meeting of some 15,000 delegates — from bishops to parishioners — is celebration of the Mass in English late today for the first time in the United States.

The English-language Mass will be effective throughout the country Nov. 29. Other countries will be able to celebrate it in their own languages too.

The Ecumenical Council, said Cardinal Ritter, 72-year-old archbishop of St. Louis "desires the church to be alerted to be adapted to our times, and also to show forth the church in a better light to the world."

The conference will discuss in a workshop atmosphere changes in church reform and progress. They range from replacement of Latin by English in the Mass to new concepts of church art and music.

Some present Catholic actions during the Mass "are confusing to the people," Cardinal Ritter said. "Non-Catholics seeing it say, 'What are they doing here?' Our actions don't really indicate what it is we are doing."

Cardinal Ritter had a lead role during the two Vatican councils in obtaining approval for English usage in the Mass. He also has been a leader in promoting other changes in church liturgy.

"We are going to have in the Mass more Scripture reading," the Cardinal said. "Probably we will have (eventually) two Epistles — one from the Old Testament and one from the New Testament. You can't understand the New Testament without the Old Testament."

The liturgical conference is the formal Catholic body concerned with Christian worship. It comprises educators, Bible scholars, musicians, artists and others involved in church liturgy.

The first of four English-language Masses will be celebrated

Airline Workers To Get Benefit Of Free Rides

WASHINGTON (UPI) — The man or woman sitting next to you on your airline trip may be enjoying one of American industry's most underrated "fringe" benefits.

Namely, air transportation — either free or at drastically reduced rates — for employees of the airlines.

The airline industry is not noted for high pay scales except at the pilot or executive levels. But employee travel privileges are a major reason why turnover in airline personnel is on the low side. They represent, as one carrier likes to term it, "hidden pay" of a kind exclusive to the airline industry.

It is not generally realized that comparatively few business firms grant employees sizable discounts on the products they manufacture. A recent survey of 1,200 representative companies, in fact, disclosed that 85 per cent did not provide product discounts.

Transportation is the product of the airlines, and employees can "buy" the product for considerably less than the public pays. Travel privileges vary from airline to airline, but in general they offer travel benefits not only to employees but members of their families. And most airlines have reciprocal agreements providing reduced rates for "off-line" travel. For example, American Airlines employees can fly for half-fare on 68 airlines throughout the world and for a 25 per cent discount on six others — and this is with guaranteed or positive space, employees and their families flew more than 243 million miles on passes last year. That is more than the total revenue miles flown by any single local service airlines. American breaks it down to about 11,000 miles per employee.

American's pass privileges, regarded as representative but possibly more liberal than on some carriers, are given to anyone who has been with the company for six months. Free transportation is on a space available basis and also has mileage limitations — an employee can fly only so many miles or so many trips.

Half-fare passes are unlimited and space is guaranteed. An employee can make reservation and get confirmed space just as if he were a regular passenger. The mileage and total trip restrictions on free passes are liberalized as seniority increases. Emergency and vacation trips are not charged against mileage.

American levies a small service charge on most of its passes. An employee flying jet coach, for example, pays a \$2 charge for trips of up to 1,800 miles. The first class jet service charges are \$5 and \$8 and flights on Electra equipment cost a flat \$2, regardless of length or class of service. No service charge is involved for piston-engine planes.

American, like all airlines, requires employees to observe certain rules when traveling on passes. They're to be "properly attired," they must make arrangements for in-flight meals 24 hours before departure, and they must give passing passengers priority in seat preferences. Stewardesses are authorized to report any "non-rev" (for non-revenue) who refuses to change his seat.

Some airlines extend free or reduced transportation to retired employees and their families. All in all, the "non-revs" probably would rather have their pay cut than lose their pass privileges.

at 5 p.m. at Kiel Auditorium in downtown St. Louis. Cardinal Ritter will celebrate another Tuesday — feast of St. Louis IX, king of France and patron of the city.

Pan American Airways Struck By AFL-CIO Union

(Continued From Page One)
from New York, Miami, Chicago, Washington, Seattle, Portland, Ore., San Francisco, Los Angeles and Houston, Tex.

The union said the 2,700 employees it represents at Cape Kennedy, Fla., would take no part in the strike. The union has a no-strike agreement with the federal government affecting missile site workers. The Cape Kennedy union members work on launching pads, fueling missiles and on maintenance.

Also unaffected, the union said, will be charter flights for the Military Air Transport Service.

The negotiations broke down after a new offer by Pan American which the union said "wasn't very good."

The strike deadline was postponed for 24 hours Sunday night — reportedly with the help of President Johnson — but union officials placed their local units on a standby basis as the midnight deadline passed Monday night.

The union said it rejected a suggestion by federal mediators for another meeting with management today.

Attempting to resolve the dispute at the hectic post-midnight session were Francis A. O'Neill, a National Mediation Board member, and Robert Roadley, a board mediator.

In addition to the wage increase, the union's demands include reduction of the work week from 40 to 37½ hours, three weeks vacation after five years service instead of the present 10 years service and improved insurance and pension benefits.

Average wages are now \$3.31 an hour for mechanics, \$2.55 for ground service personnel, \$2.83 for port stewards who handle food and other provisioning of planes and \$475 monthly for flight stewards, stewardesses and pursers.

Harry Evans Died At Local Hospital

Harry Evans, of Fountain, died at 70 at a Colorado Springs hospital Sunday. He was a retired theatrical man and had been in show business for 45 years. He is said to have discovered Ruth Etting, Chill Wills and other celebrities of the stage. He had been hospitalized for about a week.

Mr. Evans was born in Hutchinson, Kan. April 5, 1894. He is survived by his wife, Mrs. Claudia Evans, of Fountain; a sister, Violet Evans, of Tapeete, Tahiti; an aunt, Ida Ouland, Seattle, Wash.; a nephew, George V. Clapp, and a brother-in-law C. V. Clapp both of Colorado Springs.

Funeral services will be held at 1 p.m. Wednesday at the Swan Drawing Room. Burial will be in Evergreen Cemetery.

psychology department at Colorado College, pointed out that the district, as all other districts, teaches citizenship and the responsibilities of the individual as a citizen, yet had no policy that allowed a teacher to practice that responsibility.

Fay wanted to know who would do the teaching while the teacher was absent, should one be elected to the state legislature.

Roberts said that a substitute teacher would be employed.

Fay and Slack said the district would lose money on such a deal, but Supt. Richard Taylor and Asst. Supt. Richard Aspinall pointed out that the pay of a state legislator for a two- or three month period would about balance out the cost of a teacher. A legislator's salary is \$1,200 a year.

Slack said "I wonder, should we subsidize someone who wants to be in some other occupation at considerable cost to the district?"

Both Roberts and Fay said they believed that should a teacher or administrator run for and be elected to such an office that the person would be of great help to the state education program.

In other action the board: — Adopted the student handbooks for the junior and senior high schools. Roberts suggested that the books be re-written later.

The Democratic platform strongly condemns lawlessness "whether used to deny equal rights or obtain equal rights" and repudiates use of racial quotas in employment.

Also pleasing to Southerners on the platform committee was the rejection of a plank calling for enforcement of the 14th Amendment's provision for reducing a state's representation in the House in proportion to the number of its qualified citizens denied the right to vote.

Liberals also lost out on some other proposals, including their pleas for a plank supporting the Supreme Court's recent decision that seats in both houses of state legislatures must be apportioned on the basis of population.

But they scored a surprise victory too when Sen. Joseph S. Clark of Pennsylvania won approval of a plank calling on Congress to revise its rules and procedures "to assure majority rule."

Steve Reported Possibility for Cabinet Post

DENVER (UPI)—A Denver newspaper (The Rocky Mountain News) predicted today that former Gov. Steve McNichols would be appointed secretary of interior if President Johnson is returned to the White House in November.

The newspaper quoted White House aide Mike Manatos as saying McNichols had a "tremendous background" for the cabinet post and would be "an excellent interior secretary."

However, Manatos said he knew of no plans by the President to change the present cabinet.

Copper Wire Stolen From Building Site

Copper wire worth \$1,960 was stolen from a construction shack owned by the Ampex Corporation sometime over the weekend, police reported this morning.

The shack is located at E. Highway 24 and Whooten Road. Thieves pried a padlock off the shack to enter. The theft was discovered Monday morning by Ernest Bobe, an Ampex employee.

The thieves also stole four oxygen tanks worth a total of \$160 from the Benbow Plumbing and Heating Co. The tanks were outside a construction trailer at the Whooten Road site.

Survival Story to Be Told At Doctor's Conference

The "Saga of the Lady Be Good," a true story of unprecedented survival in the desert will be the topic of a luncheon presentation on unusual conditions in newborns.

Col. Umlauf designed and for- speech by Maj. William H. Copp, deputy director of audio-visual services at Headquarters NORAD Sunday noon.

The speech will be a highlight of a day long conference at the Antlers Hotel sponsored by the Colorado Academy of General Practice and attended by physicians from all over the state of Colorado.

The conference theme is "Psychologic Care of the Pediatric Patient."

Maj. Copp, a former SAC bomber pilot, has been involved in a lengthy study on the survival of members of the crew of the Lady Be Good, a plane which was downed in the Libyan desert during World War II.

The survivors of the crash walked five or six times farther than experts had believed was possible, according to Maj. Copp.

The medical portions of the program will feature three experts in the field of pediatrics and psychiatry in a four hour course approved for credit. The program is supported by a grant from the Merck, Sharpe and Dohme postgraduate program and is co-sponsored by Ross laboratories.

Dr. Jack I. Papp, president of the Pikes Peak Chapter of the Colorado Academy of General Practice will preside over the morning sessions.

The first speaker will be Dr. E. A. Daneman, assistant professor of psychiatry of the Medical College of Georgia. His morning subject will be "Importance of Discipline in the Development of a Child."

"Psychotherapeutic agents in the Control of symptoms" will be his topic during the afternoon session.

Dr. Missilline's subjects are: "The Mutual Respect Approach to Child Guidance" and "Paraphenomena to Oneself and Approach to Office Counseling."

Viet Strongman Quits After Student Rioting

had conferred until long after midnight with Taylor and Deputy Ambassador U. Alexis Johnson.

"This means turning the rule of Viet Nam over to the street," one said. "I can see nothing ahead but trouble."

The demonstrators showed growing anti-American leanings. Most of the political, religious and student factions are regarded by American intelligence men as infiltrated by Communists.

Just before noon, a large bomb exploded in a suite at Saigon's plush Caravelle Hotel, used by American servicemen, officials and tourists. Four Americans were hurt.

In Da Nang Monday rioters stoned a U.S. enlisted men's barracks and tried to break in. Khanh personally addressed the students — by this time the crowd had swelled to 30,000 — from atop a sound truck. He told them he sided with them in wanting to get rid of dictatorships but added he also wanted to get rid of Communists.

Student leaders promised to give him a chance to carry out reforms. Only 50 unarmed soldiers stood by.

Khanh's resignation as president came just as he was trying to forge a new cabinet, and at a time when American hopes were running high that the national pacification program to rid the country of Viet Cong would soon begin to pay off.

It is expected that military plans against the Communists probably will be disrupted and delayed, for the third time in

Rancher Offers Water for Thirsty Security

Water for thirsty Security Village, which faces a three-month water shortage this September, has been offered by Fountain Valley rancher John Ceresa.

Ceresa said that his contract offer to the Security Water Board guarantees a minimum of 300 acre feet of water at \$25 per acre foot.

Presently the water board is considering buying water from Widefield Homes Inc. on a temporary basis for \$40 an acre foot.

The water shortage for Security is expected when its source from Clear Spring Ranch is cut off from early September to Dec. 1. The water board will have used its contractual quota of water for this fiscal year under its contract with the ranch for 1,000 acre feet of water a year.

Ceresa said he held off development of his two parcels of land near Security and Widefield to "preserve this water for the residents of Fountain Valley."

The rancher said he spent about \$60,000 on development of his wells. He said he also offered to sell his 37 acres of land west of Security with its water to the water board for \$5,000 an acre. Ceresa said he has drilled producing wells on his larger tract across from Widefield.

Ceresa said he has offered water to the water board for weeks and hasn't heard from them since July 20.

"We are seriously considering Mr. Ceresa's offer," said Gene Hagans, president of the Security Water Board.

He pointed out that recent litigation involving Clear Spring Ranch and the water board held up consideration of new water sources. Hagans said it would cost \$15,000 to run a water line from Ceresa's land under old U.S. 85-87 and railroad tracks to Security.

Hagans said that the board's agreement with Widefield Homes for temporary water did not involve a formal contract.

It was brought out at the last water board meeting that Widefield will sell 7 million gallons of water a day to Security during the expected temporary shortage.

Greek-Turkish Deal Rumored For Cyprus

ATHENS, Greece (UPI)—Cypriot President Makarios flew into Athens today for "decisive" talks with Premier George Papandreu on the Cyprus crisis.

Informal sources said Papandreu planned to ask Makarios whether he would be willing to accept "in principle" the establishment of a Turkish or North Atlantic Treaty Organization (NATO) base on Cyprus in exchange for "enosis"—the union of Cyprus with Greece.

Dixie Demo Hurdle Slows Humphrey in Veep Race

(Continued From Page One)
J. McCarthy might be a better choice from the South's standpoint.

"Understand me," Sanders said, "I raised no objections to Sen. Humphrey. But I said that I believed McCarthy was not as well known and his views were not as well known in the South and that he might be a better candidate."

McCarthy, a Roman Catholic, has been regarded as one of the top contenders for second place on the ticket. He and Humphrey have paralleling strong views in favor of civil rights, but Humphrey's have been well publicized and McCarthy's have not.

Every maneuver at this con-

vention has pointed toward a Johnson effort to placate dissent forces and emerge with his first presidential nomination with a relatively united party behind him.

Tonight, the convention is expected to give shouting approval of what in its essentials is a middle-of-the-road platform promising sturdy accomplishments toward peace and prosperity but detouring controversial issues such as civil rights.

The Mississippi fight between a white delegation chosen with the understanding it would oppose the national ticket and the Negro-dominated Mississippi Freedom Democratic Party remained to be settled, possibly by a floor vote.

Candidate Outlines New Judicial System Effect

Norman E. Walton, local attorney and candidate for district attorney was guest speaker before the East Colorado Springs Rotary Club today at their regular meeting held at the Red Carpet Restaurant.

Walton's subject was "The New Judicial System for Colorado," which will go into effect on Jan. 1, 1965. He stated that it is his opinion that the new court system will result in considerable increase in cost of the handling of criminal cases.

He cited as one example the fact that the cases now handled by Justice of the Peace Courts will now come before the new County Courts.

He said that all such cases will be cases of record and it will be necessary to have additional court reporters to report these cases.

Appeals from the County will be taken to the District Court and will be appealed from the record, which will mean additional time and expense in reading the record, filing briefs and arguing the case on appeal.

All of the functions now performed by the constables in this area will have to be assumed by the sheriff's department and this will require additional personnel in the sheriff's department, he said.

Walton pointed out that recent decisions of the United States Supreme Court now require that every accused individual be afforded legal counsel whether or not the defendant can pay for an attorney.

He also stated that a recent Supreme Court case requires that an accused person be entitled to have an attorney present.

Hurricane Cleo On Collision Course to Cuba

(Continued From Page One)
Cleo is showing remarkable similarity to last year's Hurricane Flora, which lightly touched Jamaica and then hit Cuba with devastating force, killing more than 1,000 persons.

Havana radio said residents have begun evacuating Cuba's Oriente Province.

The Kingston Weather Bureau said Cleo's 140-mile-an-hour winds were slowed to 110 miles an hour by the mountains of Haiti, but are expected to build up again between Jamaica and Cuba.</

Epsilon Gammas Announce Ice Cream Social

A climax to Epsilon Gamma's summer activities will be a home-made ice cream social afternoon to be held at Boulder Park, 3 p.m. Sunday. All members and their families are invited to attend this party honoring rushees, transferees and their guests.

Transferees that have not received an invitation are requested to contact Mrs. Kay Schumate, 635-9582, who is ready to extend a warm welcome to all Beta Sigma Phi's new to Colorado Springs.

Attention was focused on the Autumn season's activities at a meeting held Aug. 19 with the president, Mrs. Jo Johnson presiding. Other members attending were Mrs. Marcia Schneider, Mrs. Jane Osbourne, Mrs. Gwen Porter, Mrs. Karen Strauch, Mrs. Kay Schumate, Mrs. Gloria Weathers and Mrs. Rita Seeley.

Final arrangements were made at this meeting for the chapter's rushing agenda. Highlight of the rushing calendar will be a dinner party for rushees and members to be held Sept. 16. This event will be followed by a model meeting the following week.

Members are requested to notify Mrs. Jane Osbourne, 473-0314 if unable to attend.

Dear Abby--
By ABIGAIL VAN BUREN

Start Training Yourself!

DEAR ABBY: I go with a guy who is real good in sports. I don't have much trouble with him (keeping him in his place, I mean) while he is in training, but when he is not in training he is murder. He's as strong as an ox and won't listen to reason. How can I make him keep his distance without losing him? —JACK'S GIRL

DEAR GIRL: Take a course in Judo and throw him off balance.

DEAR ABBY: If a man is left a widower, and decides to remarry after waiting a decent amount of time, must he invite the parents of his late wife to his second wedding? If not, must he inform them of it? This is an especially touchy situation because there are children by the first wife. Thank you in advance. —THE MAN

DEAR MAN: He should invite them unless they are the kind of people who would be saddened by the revived memories. In any case, he should inform the parents of his late wife of his intentions to remarry. And he should do it before someone else does.

DEAR ABBY: My whole life changed two weeks ago when they brought my child home from the public playground and told me that he had had some kind of a "fit." We took him to the doctor immediately and, after several tests, the doctor said our son has epilepsy, but he didn't know how severe it was, or how often he would have seizures. I have cried and prayed and spent sleepless nights. We've never had anything like this in our family before. Abby, what causes this? Is it contagious? Will he outgrow it? Can it be cured? Someone told me that in some states epileptics cannot marry, and in other states they must be "sterilized" so as not to pass this on to any children. We are afraid our doctor isn't telling us the whole truth. Please help us. —DESPERATE PARENTS

Senility Research
SAN FRANCISCO, Calif. (UPI) — It is generally assumed that the cause of senility is hardening of the arteries of the brain.

This may not be the cause in some cases, according to a scientific exhibit displayed here at the annual meeting of the American Medical Association. The trouble may be a too-high level of carbon dioxide in the blood, depriving the brain of oxygen. And the cause may be inadequate breathing. The evidence: in a 27-month study, patients ostensibly senile were treated with a respiratory stimulant drug (Emivan). Symptoms disappeared or were reduced.

Educational
NEW YORK (UPI) — The number of masters' degrees given by American colleges has increased strikingly within the last 25 years, according to Encyclopedia Americana.

Approximately 75,000 masters' degree were granted in 1960, as compared to only 26,000 in 1940.

The Gold Outflow

A veritable flood of gold is leaving the country. And still the nation pauses, refusing to take the restraints off the mining of gold and the free circulation of this precious metal.

The outflow of gold cannot be checked without a massive refutation of our promises to other nations and to other people. But it does not have to be checked if a new policy could be formed which would permit a market price to be established for gold so that it could be mined once more as a profit.

Why does the government hesitate? There is one solid reason.

The people prefer gold to paper. If gold came back into circulation, much of the paper purchasing power that is presently in circulation in the form of Federal Reserve notes would be abandoned in a mad rush for the shiny metal. Deflation would set in. Credit would be tightened across the board. The market would slow down. The fancied prosperity we are enjoying would vanish like a puff from a cigar. A return to real, rather than inflated values, would scatter the government's programs in a thousand areas like chaff before a gale.

Here is the data:
The annual rate of gold dollar loss was \$836 million in the January-March period of this year. But this rose to \$2.9 billion in the ninety day period of April, May and June.

The total loss for the entire year of 1963 was \$3.3 billion. Now the total loss for 1964 has already exceeded the loss of 1963.

The reason for this dwindling supply of reserve gold relates to the fact that we are paying out more gold for the meeting of overseas commitments than foreigners pay back to us. It is that simple.

But the answer, which will be upon us one day soon, is that we cannot pay out gold that we do not possess in reserve.

There are only two courses of action we can take. We can repudiate foreign commitments and thereby destroy our international credit and the merit of the dollar in foreign exchanges. Or we can go to work to replace the gold reserves by new mining and minting.

'All I Wanted...'

Future cry of distress: "But I didn't want a dictator. All I wanted was for the government to provide controlled prices, limited profits, investigations of those who opposed, social security, welfare, hospitalization, education, censorship so that only 'good' ideas can be circulated, tariffs, travel restrictions for all but 'good' people. I never advocated dictatorship."

Fish, Pesticides and FDA

As Gazette Telegraph readers know, we have small faith in that agency of "protection" called the U.S. Public Health Service. In far too many instances has this agency of the Department of Health, Education and Welfare demonstrated that it really is not interested in protecting the public health, but is a typical bureaucracy designed to promote its own budget.

Remember the "Silent Spring" controversy over pesticides? The late Rachel Carson in her book attempted to point out that in certain cases chemical pesticides had been over-used to the detriment of the public.

Well sometime back, it was reported that a considerable number of "catfish" had been killed by a chemical in the Mississippi River. The PHS immediately jumped into the act and accused a Memphis chemical corporation of dumping a certain pesticide into the Mississippi some 500 miles above where the fish were found dead.

California Feature Service has this to say about the case: "Then the PHS case began falling apart. First, the agency's claim that the chemical was found in water samples taken at the company's plant was scuttled by the simple fact that the company doesn't manufacture that chemical. So the PHS switched to another pesticide. But this one happened to be a very effective one promoted by the Agriculture Department. To appease Agriculture, the PHS

Hogwash

By GEORGE BOARDMAN

I suppose it was inevitable. One of the more gentlemanly readers of this column wrote to ask what I mean by "hogwash" and why I use it in connection with statements, opinions and idle conversation of politicians, officials and bureaucrats generally and specifically.

It's like this, sir: I became tired of calling politicians liars. You see, there are so many reasons bureaucrats decide not to tell the truth. It may not be in the best interest of the public. It may not be in the best interest of an incumbent in an election year. Anything more or less than a complete falsehood may provide the public with an unpleasant "image."

In this, the Johnson administration is stalling for time. It hopes to continue the appearance of prosperity (even as it wars on poverty) until the election is over.

But someone, some time in the near future, is going to have to choose between these two courses of action. The longer the matter is postponed, the more serious the recession will be, or the collapse, whichever comes first. Whichever party is in power at the time of the confrontation to fact, that party will receive the blame.

It is all well and good to claim that paper dollars are the equivalent of gold dollars. But if people have been promised payment in gold and instead they receive paper, the credit of those making the payment is ruined. If all the people of the world would accept American paper, the problem would be less distressing. But it appears that foreign governments are not likely to accept our paper and foreign realists will surely reject a depreciated currency.

The cost of living, according to the peculiar cost of living index, rises by maybe .00178 per cent but every \$1.00 food item now has prices ranging from \$1.10 to \$1.50 and everybody involved in selling or manufacturing the product is making a lower percentage of profit, which makes everything fine and dandy. A few congressional committees examine the situation and decide those poor old congressmen and senators "need" a cost of living increase in take-home pay and that as sorted menials had better receive a bit of encouragement, as well. About this time, they decide to ignore the cost of living index and give themselves a nice, fat, one third hike in their cut of the stolen goods and at the same time attempt to apologize for their hogwashiness.

Public Health Service was quietly sweeping the whole thing under a bureaucratic rug, humming no strains from the "Silent Spring" theme. Somehow, however, we feel this is only a momentary setback. Big Brother, no doubt, will still carry on this paternalistic watchfulness over our welfare, right or wrong.

A headline in a daily paper states: "Sharp Drop in U.S. Employment Rate Reported." and the Secretary of Labor says the statistics indicate that the economy is working better and better for more and more people. Of course, an "economy" can't very well work for people since it's the work of the people which creates an economy, but what can you expect but more and more hogwash from a bureaucrat?

The silver dollar and coinage situation generally has provided an ideal breeding state for hogwash for the past couple of years. "Hoarders" and nasty people who have faith in hard money are blamed for every mistake made by government. Profit making on coins is nasty BUT it's okay for the treasury to mint Kennedy half dollars so that collectors may make a profit on those because the coins aggrandize a president — a member of the bureaucracy.

Gross national product is a term which takes a fine kicking around by the bureaucracy because too many people do not understand what the bureaucrats are making the hogwash about, anyway. As a matter of fact, it is quite obvious that many politicians are in the same predicament. When GNP, those magic letters, get into the conversation or press release, just remember that every business in the country could lose money all year long and the good old GNP would continue to rise. Profit, in the GNP picture, is only coincidental.

Pay raises for government employees are accompanied by a special brand of hogwash which insists that all the employees will go straight and try to earn an honest living if they don't get the raise. From my personal experience, I must insist that I believe a 50 per cent cut in wages would not drive government employees into the market place. — You couldn't drive them out of government with a club. Additionally, politicians possessed by a lust for power would run for office if the pay were no more than \$7,500 a year, less all fringe benefits. Only people who want power and believe that power adds to their status and proves their superiority over others run for office, anyway. More pay-hogwash!

Good luck and good health to you, in Freedom.

QUICK QUIZ

Q—By what name was Portugal once known?
A—Lusitania.

Q—What was the first official naval battle of the American Revolutionary War?
A—The battle fought October 11, 1776, in which Americans led by Benedict Arnold were defeated by the British off Valcour Island in Lake Champlain.

When the fire breaks out, Mr. Baldwin ordinarily is in some such fireproof spot as Paris or Palma de Mallorca. He isn't in Mississippi, which he would like to set afire. And the idealistic students of S.N.C.C., urged on afar by Mr. Baldwin and his crew (most of these students are white and Northern), tramp through Mississippi rousing racial hostility, rather than improving the lot of the colored man.

These Days

At Goldwater's Elbow

By JOHN CHAMBERLAIN

Barry Goldwater has a lot of know-how and know-what going for him in his immediate entourage. The question is, how well will he use it?

There is Ed Nellor, his press secretary, for example. A most everyone has forgotten it by now, but it was Ed Nellor who, as a Washington correspondent for the old New York Sun in 1948, was responsible for breaking the Alger Hiss case.

It happened this way. Ed Nellor, in scouting around Washington, had learned that a man named Whittaker Chambers had been taken by Isaac Don Levine, a veteran anti-Stalinist, to see Adolf Berle in the State Department at the time of the Nazi-Soviet pact. Chambers had warned Berle that Communists had infiltrated the State Department. He named some names, trying to soften his blows a bit by referring to "Marxist study groups." When Berle passed the information up to President Roosevelt, he was, in effect, told to go fly a kite. Accordingly the story did not break, and nothing was done about Chambers' warnings.

Nine years went by, and Stalin had been behaving in a menacing way for a long time, when Ed Nellor wrote in the New York Sun that the House Un-American Activities Committee might really learn something about Communist subversion if it would only issue a subpoena to a prominent editor of a prominent news magazine.

TIME BOMB
I happened to be in Whittaker Chambers' office at Time Magazine when the Sun, with Ed Nellor's story, was placed on Chambers' desk. Chambers turned white when he read it. "This means me," he said.

Making light of it, I remarked that people would only think well of the Chambers' patriotism if he went to Washington and told what he knew of the Communist conspiracy. (I did not, at the time, know anything about Chambers' connection with Alger Hiss.) Chambers refused to be jockeyed out of his depression over the Nellor story.

To The Point

Save Us From Such Friends

By RUSSELL KIRK

This commentator has received a communication (mass-produced) from Mr. James Baldwin, the colored writer. It is an appeal for funds to support the "Mississippi Project" carried on by the organization called the "Student Nonviolent Coordinating Committee." And, practically speaking, it is calculated to make everybody in Mississippi miserable — especially Mississippi Negroes.

The equivocal Mr. Baldwin, most charitably described as "eccentric," is disliked and feared by the majority of educated colored people. I think many such have told me that Baldwin does not understand the typical American Negro, and will work mischief. "He expresses his own neuroses, this Baldwin," they observe, "and doesn't speak for us." Mr. Baldwin is given to predicting "fire" — violent Negro rebellion against American society, "going into the streets." After the Harlem riots, a number of able and honest Negro spokesmen were emphatic in disassociating themselves from Baldwin.

When the fire breaks out, Mr. Baldwin ordinarily is in some such fireproof spot as Paris or Palma de Mallorca. He isn't in Mississippi, which he would like to set afire. And the idealistic students of S.N.C.C., urged on afar by Mr. Baldwin and his crew (most of these students are white and Northern), tramp through Mississippi rousing racial hostility, rather than improving the lot of the colored man.

Months ago, a Negro leader sufficiently shrewd, Mr. Bayard Rustin, advised the S.N.C.C. zealots that they would do better to spend their summers at home, improving racial relationships and advancing the cause of colored people in their own Northern cities. His sound counsel fell upon deaf or fanatic ears. The consequences are sufficiently obvious now.

As this columnist pointed out very recently, the real aim of the "Mississippi Project" has

ry. "I always feared I'd have to cross this bridge," he said, "but I hoped not to." Then, looking down the hall toward the office of a ranking Time editor, he added glumly: "Besides, people around here don't like informers."

In due course, the subpoena to Chambers was issued. The Hiss case broke upon a startled nation, and, in time, Chambers wrote "Witness," his masterly Dostoevskian study of the operations of communism in America which paid due attention to the dilemmas of a delicate conscience torn between the necessity of warning the nation and a candid distaste for exposing old friends.

THE AEC
The point about bringing up this episode from Ed Nellor's journalistic past is that Barry Goldwater has at his elbow a man who knows a great deal about the machinations of the Communist enemy. Maybe Nellor could make something of a piece of Harold P. Green, a lawyer and professor of law at George Washington University who was with the Atomic Energy Commission from 1950 to 1954. Writing in the bulletin of the atomic scientists for May, 1964, Mr. Green says, "I am personally aware of several cases in which the AEC has granted clearance to persons unable to obtain clearance in other agencies or persons who were discharged on security grounds by other agencies; or cases in which grave security problems were found by other agencies in the backgrounds of persons previously cleared by the AEC with full knowledge of the derogatory information which so troubled the other agencies."

Mr. Green apparently thinks rather well of the AEC for not having a "savage security program." He says "The concept of security has come a long way since the nightmarish aberrations of the early Eisenhower years." A Barry Goldwater who has recently looked with favor upon the foreign policy record of the Eisenhower — Dulles administration, which protected Lebanon and refused to sacrifice Quemoy and Matsu, might not interpret the Eisenhower "concept of security" as a "nightmarish aberration." And maybe Barry Goldwater's Ed Nellor should suggest another subpoena.

These executive orders are duly recorded in the Federal Register and have been adopted or approved by Congress. Under these edicts, the complete takeover of the United States from within can take place at any time the executive declares an "emergency." EXECUTIVE ORDERS

To the Editor:
In reading your fine article in yesterday's Gazette Telegraph I thought about the contracts our Congress has got us involved in by approving the executive orders our socialist President got them to sign for him and us. Few people know that we are bound by these contracts. Those who were dismayed when they first read about them, have forgotten and left them on the record without much protest. We are in great danger as long as they are a contract, signed and in writing. The declaration of an emergency, military or economic might cause the enforcement of these executive orders.

Disservice to Workers

From Christian Economics
When the electrical workers secured the 25-hour work week and a wage rate of nearly \$5 an hour in July, 1962, it was expected that a great many new jobs would be available for electricians. Expectations in that respect have not been realized and now there is talk of a slowdown in construction based on excessive costs.

Already there is talk of returning to the 35-hour work week and a pay scale of \$3.50 per hour. That would certainly promote construction activity. Men must learn not to price themselves out of the market, and that the way to create more jobs is to sell more of their services. If building costs were lowered there would be more building and more jobs. A man who earns \$5 an hour cannot sell much of his product to a man who earns only \$2.50 an hour. One may be selfish and succeed in getting his wage scale upped only to find that he has destroyed his job.

graph, regarding the exorbitant fees charged by the trustee and his attorney. No mention was made of Lena Meier's fee and expenses of around \$2,500 in all — why not? Because Lena Meier talked with Mr. McPherson about this matter, and she asked him to write the letter which he did and which he sent in for publication. Why didn't she write the letter? Getting others to carry out her wishes, and hiding in the background!

Furthermore, the P. O. Box 2324 is Mrs. Lena Meier's Box Number. You can draw your own conclusions.
The SEC at the last court hearing in Denver told Mrs. Meier to quit trying to usurp the trustee's position by things she has been doing, and told her off. I, too, think that the fees charged are way out of line — they are outrageous — I suppose they knew the money is there, so why not claim it, regardless of what, if anything, is left for the investors to reorganize with — like a bunch of vultures closing in on the dead corpse!

Thought you would be interested in the above. Wake up, investors! Don't be led around like a bunch of sheep — do your own thinking and analyzing of things! Write the judge about your thoughts.

The American Way

Standard of Living

By HARRY BROWNE

Would you like to lower your standard of living? Would you like to be able to pay higher prices for the things you need? Would you prefer that some products you willingly buy, at a fair price, be removed from the market so that they are no longer available to you?

Let me guess that your answer to all three of those questions would be no. And yet that is exactly what is happening today, as a result of laws that are designed to injure you as a consumer. Let's look at an example. Suppose you go to the store to buy a product you want — and you find it at a price you are willing to pay. You and the maker of that product have found a basis upon which to trade, a basis that is profitable to both of you. The maker would rather have your money than the product — and you would rather have the product than the money.

But suppose after deciding you want to buy the product, you find that the government has decided that the maker may no longer sell you such a product. Would you be pleased?

Or suppose that you learn that the government has decided that the maker must raise the price of the product to an amount that you don't want to pay. Or suppose you learn that the government has forced the maker to give up some of its manufacturing facilities, raising the cost of producing the product, and thereby raising the price to you.

All three of these possibilities hurt you. They prevent you from having things you want — or require you to pay more for them than you should have to. All three of these situations actually exist today. They are the result of anti-trust laws.

For anti-trust laws are designed to prevent efficient companies from providing satisfactory service to willing buyers. They force manufacturers to raise prices — supposedly to prevent "unfair competition." This simply means that the efficient are no longer allowed to efficiently serve you, and the inefficient (who shouldn't even be competing in the first place) are protected — at your expense.

Anti-trust laws also force some companies to stay completely out of markets where they may have a valuable service to offer consumers. And they also force companies to give up ownership of subsidiary companies, preventing them from taking advantage of lower costs of production that could save you money in the purchase price.

When you buy a product, you do so willingly. No one forces you to buy. You do so because you would prefer to have the product rather than the money involved. When government passes laws, they must inevitably prevent you from exercising your free choice to do business with companies that are in a position to serve you efficiently.

Would you like to raise your standard of living? It will go up when the anti-trust laws are wiped off the books. When that happens, some inefficient businesses will then be required to go into other lines of work where they can be productive. And you will have a much greater variety of products and services, at lower prices, to choose from.

The American Way is to let each man decide for himself what he will do with his property. People exchange freely with each other because that is the way to improve the conditions of all. Economic "laws" only inhibit these free exchanges. The sooner they are removed from the law books, the sooner we can eliminate poverty and injustice from America. And the sooner we can see a standard of living never even dreamed of before.

Don't you agree?

NEWCOMER'S

To the Editor:
An article in the Gazette Open Parliament commented on the proposed payments from the defunct Joe Newcomer Finance Corporation, to the ones who were supposed to work to save something for the depositors, who have already been robbed aplenty. When the government takes a hand in anything, the depositors might as well throw up their hands. The trustee is asking \$30,000 too much, and the assistant, ditto, and the lawyer \$5,000 too much. The expenses can be itemized and are probably somewhere near right, but I would check them.

I was interested in Newcomer's company for awhile when it first started; had over \$1,500 in it when I began to inquire about its finances, and told Joe I had done so. He got very angry about it and threatened to pay me off. I said it would be all right with me, so in a few days I got payment in full with the interest to date, so I was lucky, but feel sorry for the depositors. With the government in charge, I doubt they can pull out more than a cash settlement will net now. The government never makes anything pay, they grab all they can get and that means all of it. Sorry about the whole thing.

Looking At Hollywood

By HEDDA HOPPER
© 1964, By the Chicago Tribune

CARY GRANT SETS RECORD AT NEW YORK'S MUSIC HALL. HOLLYWOOD — Cary Grant holds the world record at New York's Music Hall. His latest picture, "Father Goose," will be this year's Christmas attraction. Cary's 27th to play there. Starting with " Sylvia Scarlett " in '36 (last year "Charade"), his pictures have played a total of 107 weeks at the Music Hall and grossed more than 12 million dollars. President Russell Downing presented him with a plaque as all-time box office champ after "Operation Petticoat." Would that he had more Cary Grants. But, alas, there's only one. To the everlasting shame of Hollywood we've never given him an Oscar.

Sidney Poitier bowed out of "Synanon House." It interfered with "The Bedford Incident," and he's not about to jeopardize that. He said, "James Poe's script has the ingredients of greatness, and my part is fantastic." I asked him for a rundown on his life since winning the Oscar: "My home town gave me a blow out that humbled me," he said. "The simplicity and warmth of my countrymen will keep my feet glued to the ground forever. My experience as United States representative to the Berlin Film festival was a unique opportunity to be of service. I met with people of many countries, with tremendous results. They were surprised that the state department would send a Negro in an official capacity — but pleased and happy about it. It gave me an opportunity to tell them that this country is not all as it's pictured by the European press."

My old pal, Conductor Frank Worth, brought in his latest album, "Presidential Primer or How to Be President in 10 Easy Lessons," a riot that will entertain both Democrats and Republicans. David Merrick is now reading the musical on which Frank and Ed Greenberg have worked for five years. Called "The Magnificent Pagan," it's about the life of Vincent Van Gogh. Naturally they hope Gower Champion will do the directorial honors, but who will sing the great artist? Bob Hope shoots the bankroll for his comedy special which kicks off his fall TV show, Sept. 25. Making merry with him will be Jack Benny, Milton Berle, Dean Martin, and Phyllis Diller. Because Bob's deep in "I'll Take Sweden," they'll have to film weekends. Joining his picture is Rosemarie Frankland, a former Miss World, who as with him in Greenland two years ago. She's brunette, 21, and this marks her American debut.

Rock Hudson opens his home for three recitals at \$100 a couple for the benefit of the Young Musicians Foundation. First one, Sept. 18. Marilyn Maxwell helps him receive "Cinderella" makes a comeback on CBS in a remake of the Rodgers and Hammerstein musical (only one they wrote for TV). This time around the cast will be headed by Ginger Rogers, Walter Pidgeon, Jo Van Fleet, and playing Cinderella will be 17-year-old Lesley Warren from mthe national company of "110 in the Shade."

Gypsy Rose Lee asked me to an all-girl dinner with her sisters from the national company but you can always expect a surprise from Gyp. At the table were Binnie's husband, Mike Frankovich (he paid), their 21-year-old son Peter, Edana Romney, and the Paul Kohners. Gypsy and June put on the darndest show. One makes a statement; the other takes exception. It's an act they've done for years. Very amusing.

Soupy Sales will throw no more pies. He's gone to New York to do an hour TV show five times a week on channel 5, and the public will discover that he's a real comedian. Later the show will be seen here on Channel 11.

Terrorist Bomb Injures Nine In Saigon Hotel

SAIGON, South Viet Nam (AP) — A terrorist bomb shattered parts of two floors at Saigon's Caravelle Hotel today, injuring at least nine persons, four of them Americans.

The blast was centered in a room rented Monday night by a Vietnamese man now being sought by police, a hotel source said.

The Americans injured were identified as Mr. and Mrs. Dan Moran of San Francisco, Mrs. Hugh G. Glassford, wife of a National Broadcasting Co. correspondent, and an unidentified U.S. serviceman. All had minor injuries caused by flying glass

SAAB Car Will Compete in Utah Trials

The fastest SAAB car in the world will be competing for international honors this week, at the 16th annual Bonneville National Speed Trials in Utah. Piloting the souped-up SAAB will be Richard Catron, president of Rocky Mountain SAAB, Inc., Denver distributor for the popular Swedish compact. Guiding SAAB's attempt at the speed record is Mr. Robert Wehman, director of competition for SAAB Motors, the U. S. distributor.

Lead Company Splits Stocks, Jumps Dividend

Boettcher Company reports that the directors of St. Joseph Lead Company have boosted the quarterly dividend and split the common stock three for two.

The quarterly dividend was raised by 25 cents to 75 cents per share based on present shares beginning with a payout Sept. 15 to holders of record Aug. 28.

New shares will be distributed Sept. 30 to holders of record Aug. 30 and the dividend rate thereafter is expected to be 50 cents per share on the new shares.

In other reports, personal income rose last month to another peak. According to Commerce Department figures, the rate advanced \$1.5 billion from the June pace to an annual rate of \$490.8 billion. The increase was about the same as June and slightly larger than the rise reported for May. Dividend and interest income also increased.

Government contracts totaling more than \$76 million have been awarded to Raytheon Company.

A \$53,500,000 Air Force contract is for manufacture of Sparrow III Air-to-air missiles, the company officials said.

A \$22,700,000 Army contract was let to the company for initial equipment to convert the Army's communications system to the number system used in computer language from the present letter system.

Black Forest Girl Named First Runner-Up

Idahlynn Fultz, Black Forest, was named first runner-up to the "Majorette Queen" Saturday at the State and Open States Awards baton twirling contest in Denver.

Miss Fultz, a student of the Joan M. Cowan Baton Twirling Studio here, also placed fourth in the state advanced twirling senior division; third in the open states 17-20 twirling solo division; second in the open states military strut, and third in the open states fancy strut.

Donna Gaherty of Security placed fourth in the open states advanced twirling solo 17-20 division; Vickie Giannatale placed fifth in the open states advanced solo 7-8 division, and Bette Jo Esch came in second in the open states novice solo 7-8 year division. They are also students of Mrs. Cowan.

Approximately 350 baton twirlers from Colorado and several nearby states competed in the event which is sanctioned by the National Baton Twirling Association of Janesville, Wis., and was directed by Marian B. Batherly of Denver.

The Gold Nugget Twirling Team received a third place trophy in state competition and a third place trophy in open states competition. Team members are Rhonda Cowan, Suzanne Garriques, Miss Fultz, Julia Green, Cathy Hannon, and Jane Roberson.

The team was filmed by KOA-TV during competition and last week was featured with the Pride City Band of Pueblo at the All - State Football Game held in Pueblo.

Judge Finds for Both Men in Cross Charges

Judge Allan Asher Monday in Municipal Court found Lee Huff, 66, 2511 W. St. Vrain St., and Brian Wickham, 25, 2530 W. W. Williams St., innocent of charges of riotous conduct and breach of peace they had brought against each other.

Judge Asher also dismissed charges of disorderly conduct and injury to private property against Delta Elliott, 27, 2520 W. Colorado Ave., on a motion by Deputy City Attorney Bob Isaac for lack of sufficient evidence.

Charges of disorderly conduct, riotous conduct and breach of peace were dismissed against Maj. Anthony Francavilla, 38, Ft. Carson, at Isaac's request.

At the request of Mrs. Alfred Kendrick, Judge Asher dismissed charges of riotous conduct and breach of peace she had brought against her 37-year-old husband. The Kendricks live in Palmer Lake.

William Martinez, 21, 335 W. Costilla St., was found not guilty of charges of riotous conduct and injury to private property.

At the request of the complaining witness, charges of riotous conduct, breach of peace and injury to private property were dismissed against Jose Martinez, 19, 317 W. Portland St.; Charles Terrell, 19, Carson, and Kenneth Wolf, 19, also of Carson.

Woman Injured In One-Car Mishap Monday

Jean Sword, 32, of the Black Forest, suffered minor injuries Monday morning in a one-car accident 10 miles north of here on Burgess Road.

She was taken to Penrose Hospital for treatment of a bump on the head and a cut nose.

State Patrolman Nathan Boals said her westbound car went out of control and crashed through a barbed wire fence. Damage to the vehicle was estimated at \$400 worth.

Glen B. Jones Died Saturday, Rites Today

Glen B. Jones, Lytle Star Rt. died suddenly Saturday at DAC Hospital. He was retired and had lived in the Pikes Peak Region for seven years, but had been a resident of Colorado 40 years. He formerly lived in Hugo.

Mr. Jones was born in Big Foot, Tex., April 24, 1899. He is survived by his wife, Mrs. Frances M. Jones, Lytle Star Rt.; three brothers, Andy W. Jones and Herbert W. Jones, both of San Antonio, Tex., and Jim C. Jones, Vallejo, Calif., and a sister, Mrs. Winnie Shoemaker, Fremont, Tex.

Funeral services were held at 2 p.m. today at the Nolan Drawing Room. Dr. Walter G. Schaefer officiated. Burial was in Evergreen Cemetery.

DISPLAY EXPLAINED — Library display dealing with escape and evasion is discussed by former POW Col. Ralph Hallenbeck, Academy Chief of Staff, and Cadet Third Class Raymond J. Leopold. Shot down in the Vienna area in May, 1944, Colonel Hallenbeck was badly burned. He went five days without medical care. A POW doctor who had never done plastic surgery repaired the colonel's badly infected eyelids and saved his sight. (Air Force Photo)

Display Shows Ingenuity Of POW's in World War II

During World War II, an American POW's (prisoner-of-war) best friend, was often a simple tin can.

From tin cans, ingenious GIs turned out a wide variety of essential tools and utensils.

Examples of the native ingenuity exhibited by American POW's is the theme of a display currently featured in the Air Force Academy Library. The items are on loan from the Air Force Museum at Wright-Patterson AFB, Ohio.

At Stalag Luft I, near Barth, Germany, the sour, soggy German bread caused wholesale stomach trouble. A toaster was needed to dry out the bread and make it digestible.

A clever GI and a tin can solved the problem. He rigged up a toaster.

But there was still a problem. The stove in the POW barracks wasn't hot enough to do the job. With a few more tin cans another GI fashioned an air pump.

Then an even more efficient unit was devised with gears to make the fan turn faster. The air pump also proved vital to escape plots. It was used to ventilate escape tunnels.

Metal for tools could also be heat treated in the stove by using the fan to raise the temperature to the proper degree. Ice skates sent to Stalag Luft I by the Red Cross were pressed into service as wire cutters. Skates were taken apart, heat treated, and fashioned into highly serviceable cutters.

In addition to cookware items and escape paraphernalia, many other examples of POW craftsmanship are on display. Beautifully carved pilot wings, small boats, bracelets, and aircraft models show how POW's passed time.

Greatest ingenuity, however, is reflected in the items primarily designed to serve as escape tools.

A drawing, for example, was made to show in minute detail the cockpit of the German Focke-Wulf FW-190 fighter. Lengthy instructions explain every detail on the drawing.

The drawing was originally made by several Army Air Force pilots who had flown capture. Based on recollections they put down all necessary cockpit procedures so a prisoner who escaped and had a chance to steal one of the aircraft from a Luftwaffe airfield would be able to fly "home."

And escape map of the area around Stalag Luft I and Northern Germany is also on display in the library. The map was mass produced on a home-made ink roller.

Fake weapons were also manufactured by POWs. Two wooden automatics, a wooden bayonet, and a fake holster identical to the type worn by German forces at Stalag Luft I are included in the current exhibit.

Idea for the unusual display originated with a series of four bibliographies dealing with unconventional warfare. Part III of the series deals solely with escape and evasion.

Library director is Col. George V. Fagan. Located on the fourth floor of the library, the display is open to the public.

Civil Suit Filed in Gun Death

A \$28,000 wrongful death suit was filed in District Court Monday by Mrs. Clarie B. Lucas, 2322 Lockhaven Dr. against Othmer A. Hermanitz.

Mrs. Lucas' husband, William E. Lucas, 44, died from a bullet wound he received at the Fountain Wayside Inn, Aug. 8.

Hermanitz, 49, Fountain has been charged with first degree murder.

According to the information, the dead man is survived by five children.

Sept. 21. Capt. Warren Frank, 35, no address listed, drunk and resisting police; Arthur Gibson, 32, Carson, riotous conduct and breach of peace; Harvey Leveston, 32, 17 1/2 W. Costilla St., riotous conduct.

A warrant was ordered issued for the arrest of John Pere, 19, Carson, who failed to appear in court on a riotous conduct charge.

Charges of disorderly conduct, riotous conduct, drunkenness, and breach of peace were dismissed against James Mills, 29, 1324 W. Kiowa St., at the request of the man's wife. Judge Asher also dismissed charges of riotous conduct and breach of peace against Larry Nicks, 19, Route 2, at the request of the complainant.

The Zebulon Pike coin club holds its meeting at 7:30 p.m. Wednesday, at 414 W. Pikes Peak Ave. The business meeting will be followed by a coffee break and an auction of rare coins.

All visitors of the Pikes Peak region who are coin collectors or interested in coins are invited to attend and meet with the local collectors.

Canon Lounge Reopens on Court Order

By JOHN KUGLI N
Gazette Telegraph Staff Writer
There was brisk business in the Canon Lounge last weekend, despite 30-day suspension Aug. 18 of the license for the bar by the Manitou Springs City Council.

Business was even lively in the middle of Monday afternoon. Council's action was apparently circumvented by a stay of proceedings granted last Friday by District Court Judge William M. Calvert.

"They only closed us for 47 hours," M. Sgt. Harold Caldwell, a bartender in the lounge, said Monday afternoon.

Caldwell confirmed that the Canon Lounge closed 10 a.m. Thursday when ordered to by the city council, and reopened 9 a.m. Saturday after the court order.

The case will probably be decided in District Court. Matthew B. Wills, attorney for Mrs. Edna Suwell, owner of the bar at 730 Manitou Ave. in downtown Manitou, said the city council has 30 days from the staying order to show cause for its action. And 60 days from the order to certify a complete transcript of the public hearing Aug. 18. The hearing was recorded by a court reporter.

Wills said that defendants in the stay of proceedings were the city councilmen who suspended the license, as the local licensing authority.

Mayor L. Longaker said Monday that City Attorney Blakemore McCarty was "out of town" and that no action would be taken by the city until McCarty is consulted.

Police Chief Russell Paul reported Monday there have been no complaints to police on the operation of the lounge since it reopened Saturday. Paul testified at the hearing that there were 18 complaints to police of loud noise at the Canon Lounge since June 7.

C. Fidler, 732 Manitou Ave., who authored the complaint of persons living near the bar, said the residents were "sitting tight" following the reopening of the bar. "It's not up to the residents. It's up to the city," Fidler said.

The complaint precipitating the hearing was signed by 13 citizens. They alleged that owners of the Canon Lounge "were daily and constantly under influence of liquor," and that liquor was served to minors, persons of "low repute," and those already intoxicated.

However their main complaint was of noise from the juke box and Western band.

Prof. Glenn Gray will speak at Stephens College.

Prof. J. Glenn Gray of Colorado College has been invited to be one of the speakers before the annual meeting of the Kent Fellows Aug. 31-Sept. 5 at Stephens College in Columbia, Mo. The meeting is under sponsorship of the Danforth Foundation.

Her first voice is rather assertive and strong; but she has a second voice which has a clear, bell-like tone, in which she soars into the upper reaches of the scale with remarkable beauty; and it might be interesting, and most entertaining, especially in a spot which she occupies between the Dillards & Smothers' to capitalize more on the quiet clarity especially in the nostalgic numbers, so as to prove a greater contrast, and so as to capture the attention of the audience even more, although she has no trouble keeping the audience, doing it very successfully. Her best resources, in that case, would be to bring the folk song to a very "fine" point, speaking of vocal color and dynamics, which certainly would leave the audience hushed in a beautiful mood. But her first voice, of

course, lends itself very well for other types of songs, and emphasizes the quotation from Time magazine that she "delivers the truth."

The Smothers Brothers took up the entire second half of the program, designed to bring it to its high point. They were as full of their hi-jinks as ever, but there is a temptation for the hi-jinks to overbalance the complete songs, instead of interrupting them with the brotherly dialogue; it is interesting that Jack Benny experimented successfully with this kind of thing on his shows for many years, but he has developed it on a fine line, over which he does not cross, always providing a return to the purely lyrical of the comic vein.

The Dillards, of course, use the same device but not to such a great extent as the Smothers Brothers; and it is interesting to see that in the presentation of folk song concerts, this seems to be assuming a greater share of the time than it has in the past. Perhaps it is necessary to do so, especially if the performers repeat old numbers (although the folk song repertoire is by no means as limited as all that). The apparent development of folk song programs is that of actually a combination of music-and-comedy acts. This development is probably a natural one, but it has serious pitfalls, and a standard of programming eventually will have to be developed, if the field is to be stabilized as a permanent feature of the American entertainment scene. For, when all is said and done, the nature of the folk song is in the form of a story, or message, not necessarily a didactic, but primarily a lyrical one.

However, as it is, the folk song festival by these talented singers and musicians, which will run through Saturday at the International Center, provides a very full evening of musical and comic entertainment, and the audiences are very satisfied by it, to judge from the enthusiastic applause for all of them.

Guest speaker for the regular meeting of the Royal Gorge Republican Women's Club of Canon City this evening will be JoAnn Gray, vice chairman of the State Goldwater organization, and of the Goldwater Speakers Bureau, Denver.

The meeting, scheduled for 7:30 p.m. in the Fremont county courthouse auditorium, and is open to the public.

Miss Gray, who has been identified with the Goldwater movement in Colorado since its early stages, will discuss the Republican party's presidential nominee's viewpoint, and review the activities of the National convention in San Francisco.

COLORADO SPRINGS—TUESDAY, AUGUST 25, 1964 SECTION B

NOT BAD FOR OPENERS — Ricky Scarborough, Wasson High School senior, is pictured with the ram he bagged on opening morning of the 1964 season. Ricky, 1718 Bates Dr. killed the big horn at approximately 12,000 feet on the

Southern Slope of Pikes Peak. The ram is about six years old, had a three-quarter curl, and weighed some 200 pounds. It took 12 hours of work and a pack burro to remove the ram down to the lower elevation.

Folk Songs and Hi Jinks Mark Broadmoor Festival

By JOHN FETLER
ARTS CRITIC

Still tops on the list of audiences, folk song singers and musicians drew a capacity crowd at the Broadmoor International Theatre Monday night. Featured were the Smothers Brothers, Carolyn Hester and the Dillards.

First came the Dillards from Missouri. They presented a succession of folk songs from the Ozarks and twanging music which delighted the crowd, playing "bluegrass," which is reported to have a steadily increasing appeal, fast paced, stylized 3-part harmony. The boys did a fine, convincing job of it, and gave the Springs audience a whiff of the type of style which has earned them concerts at Disneyland, UCLA, and other important spots where folk song is going strong.

The appearance of Carolyn Hester, who has just returned from a folk singing tour of England, was startling, for the hock of wild hair which frames her sometimes wistful face, and her voice and presentation proved that she is a folk singer to be rated with the best, although she has one curious ability which few of them have: Namely, she has two voices. Not at the same time, of course (for only Nelson Eddy can do that — when he sings the part of Disney's whale) but in succession.

Her first voice is rather assertive and strong; but she has a second voice which has a clear, bell-like tone, in which she soars into the upper reaches of the scale with remarkable beauty; and it might be interesting, and most entertaining, especially in a spot which she occupies between the Dillards & Smothers' to capitalize more on the quiet clarity especially in the nostalgic numbers, so as to prove a greater contrast, and so as to capture the attention of the audience even more, although she has no trouble keeping the audience, doing it very successfully. Bids Let For School Additions

Bids were let for two elementary school additions and boundary line changes were approved Monday night by the Harrison District 2 School Board.

The board voted unanimously to adjust the boundary line with Wiedfield Dist. 3 to place about 40 acres of Stratmoor Valley in District 2.

School Superintendent N. V. Gorman said there were 15 or 16 houses already built on the tract.

Final approval of the land transfer, also approved Monday night by the School District 3 board, rests with the County School Planning Commission.

Gorman said he will consult today with County School Superintendent Georgianna Kettle on the boundary adjustment.

Mrs. Kettle, as secretary of the School Planning Commission, has the power to set the time and place of its meetings.

Hayes Construction Co. was apparent low bidder to construct additions to Stratmoor Hills and Stratton Meadows elementary schools. Their base bid was \$173,466. The board also selected Hayes to do blacktopping at the two schools for \$4,159.

There were five other bidders. Gorman said the additions should be ready for occupancy by Feb. 10, 1965. Funds for the projects will come from \$470,000 in bonds which will be sold Sept. 1.

The first addition to Stratmoor Hills Elementary will be a remedial teaching and two kindergarten rooms, a library and multi-purpose room and kitchen equipment. Stratton Meadows Elementary will get a kitchen.

The board authorized expenditure of approximately \$25,000 for site improvement at the proposed elementary school in Pikes Peak Park by Sproul Homes Inc., the developer who donated the 10-acre tract to the district. The developer and District 2 agreed to split the cost of laying gutters, streets and curbs, water and sewer lines and other expenses.

A Sproul representative recommended that the boundary between District 2 and Colorado Springs District 11 be moved north to include more of Pikes Peak Park in District 2. No action was taken by the board.

Two patrons of District 2 were appointed to the planning commission for a new senior high school, Herman Rocky and Mrs. Clifford Gertsch.

Defending Champ Haggarty Loses in Senior Tournament

By TOM CUSHMAN
Gazette Telegraph Sports Writer

Seniors golf is usually advertised as a rather predictable sporting event—but the World Tournament, which teed off for its fifth annual competition over the Broadmoor Course Monday, refuses to follow that format.

Last August the finest field that had ever graced the tournament pairings provoked a number of major casualties in the early rounds. Howard Creel of Colorado Springs, who had won the title the previous two summers, bowed out the first day as did Adrian McManus of Windermere, Fla. and Adrian French of Los Angeles. All three were members of the U.S. team which had competed in the International Team Match just preceding the tournament.

While those three favorites were swept aside in the 1963 wave of upsets, lefthander George Haggarty of Grosse Point, Mich. came on to claim the championship and one of the top positions in the world of senior golf. That feat obviously set him up as a prime target and Monday, in the most startling upset of the 1964 first round,

Haggarty was gunned down by Max Hunter of Olympia, Wash., 4 and 3.

Haggarty's demise coincided with the surprising withdrawal of Creel, who had shot a one-over-par 73 in qualifying; led the U.S. team to the championship in the International Match; and then announced that he had decided not to compete. His absence removed one of the most talented players from the tournament and, coupled with the defeat of Haggarty left a wide open race to the title for the bulging field.

Although Creel and Haggarty, who own three of the four previous titles between them, will not be around for this year's award ceremonies, the majority of the other top choices did move through the first round—most without incident. Included in this group was McManus, the runner-up to Creel in both 1961 and 1962. McManus ousted Tait Schriber of Beverly Hills, Calif., 4 and 3.

Joining him in the second round was the fourth member of the U.S. team which won the International Match, Adrian French. French, who is without

his former companion, a steaming cigar, whipped Frank Godchaux of Abbeville, La., 3 and 2.

Also moving through his first match was M. L. Carlsmith of Hilo, Hawaii, the two-time United States Seniors champion who will now assume the role of favorite with the absence of the defending champ and Creel. The stocky Carlsmith whipped Dr. Cope Sheldon, 4 and 3, Monday.

Other winners included comedian Phil Harris of Palm Springs, Calif., who trounced George Wiggins of Albuquerque, N.M., 6 and 5 and Alex Spence of Coronado, Calif., who made a name for himself in this tournament a year ago by defeating Creel in the first round. Spence had the day's longest match, going 21 holes before defeating

Leonard Woods of Galesburg, Ill., 1 up.

Sam Reynolds, the former Nebraska governor, also had an extra hole match before ousting E. Russell Jones of Wilmington, Del. on the 19th green. Dorsey Neversall of Pompano Beach, Fla., who is one of the favorites every time he plays here, whipped Leonard Stone of Beaumont, Tex., 5 and 4. The majority of these players were in the top bracket, which appears to have the overload of talent this summer.

Haggarty, who refused to offer any excuses for his unexpected downfall, actually played this week with an injured wrist which undoubtedly hampered him. Two straight 78s which he turned in during the International Match indicated that he was definitely off the

form that won him the crown a year ago.

Today's top matches were to send Hunter against Forest Andrews of Colorado Springs; Phil Harris against Spence; Neversall against R. M. Udow of Yokohama, Japan; Carlsmith against Joe Dyer of Denver; medalist Jack Barkel of Sydney, Australia against M. A. McClelland of Kansas City, Mo.; French against Andy Cowan of Chicago; and McManus against Francisco Roca of Guanajuato, Mexico.

All the players who were defeated Monday were to continue action today in consolation flights. The tournament is scheduled to run through Saturday when the 18 hole finals in the Championship Flight will decide who replaces Haggarty on the World Seniors throne.

Junior Golfers Open Tests For Spots in Western Meet

By MORRIS FRASER
Gazette Telegraph Sports Writer

Predictions on the range of qualifying scores were an interesting pastime Monday for contestants and officials of the Western Junior Golf Tournament.

Players touring the Air Force Academy's Eisenhower Course in practice rounds stabbed at 148 or even 150 as the mediaist would need on the par 72 layout. Qualifying began

today and continues Wednesday. But those making such high "guesstimates" had just come in after wind had swept the course before a promising but not-fulfilled rain missed the academy.

Cameron Eddy, for the 80th straight meet since 1938 the chairman of the rules committee of the Western Golf Association, and course pro Chick Ritter each put the mediaist score at 142. Eddy said the cut-

off at the low 32 shooters would be 155. Ritter tapped the cutoff at 156.

Usually, in the nine years since the mediaist round has been 36 holes, the margin between the mediaist score and the last cutoff score has been from nine to 14 points. Golfers Monday were concerned about the hard greens and many of them hadn't played a mountain course before.

Hale Irwin of Boulder, who won his second straight Colorado college medal play title on this course fired the best reported practice round with a 73. Joe Porter, Arizona high school and men's champion, shot a 74. Others came in above 75.

Teams were made up at a banquet Monday night for the Team Championships. Each team, comprised of three to five players, will vie for the R. A. Wood Trophy won last year by the Golf Association of Michigan.

The low three scores for the two days of qualifying will determine the team championship.

Twenty-five teams, including 101 players out of the 136-man field entered in the match play phase of the tournament; teed off this morning. The University of Colorado has two teams entered. One is composed of Dan Dymerski, state schoolboy champion from Aurora, Chris Seena of Denver and Ray Benton of Denver.

The second team has Irwin, Arnold Abel and Tad Polumbus of Denver and Rich McClintock of Englewood.

Jim Wiechers and Greg Pitzer, two of the favorites in the tournament, have teamed from the California Golf Association along with other standout golfers. Roger Cleveland, Brian Gaddy and Harry Long.

Wiechers was last year's medalist with a 136.

Every golfer who took a swing around the course in practice praised the layout, designed by Robert Trent Jones. One entry, just sitting down to a hamburger after his round stated, "This is a good course. There's not an easy hole on it."

This is the first major tournament ever held at a service academy.

Fourteen Teams Still After Title

WICHITA, Kan. (AP)—The National Non-Pro Baseball Tournament turns into its last week with 14 teams still in contention, although most of them have lost one game.

From now on the list in the losers' bracket will be trimmed rapidly.

Four teams were eliminated Monday and two will go out tonight.

Those ousted Monday were Indianapolis, with a 1-2 record, Milwaukee (2-2), Lubbock, Tex., (1-2) and Trenton, N.J. (2-2).

Ponchatoula, La., (3-1) beat Trenton 14-10, scoring seven runs in the first inning and five in the third.

Eureka, Calif., (3-0) beat Wyoming, Mich., (2-1) 5-3; Wichita Dreamliners (2-1) trounced Lubbock 10-4 in seven innings; Wichita Glass (2-1) defeated Indianapolis 7-3, and Kingsport, Tenn., (3-1) outlasted Milwaukee 13-12.

Tonight's games (CST): 5:15 p.m. — West Point, Miss. (2-1) vs. Gibsonville, Fla. (3-1). 7:45 p.m. — Fulton, Mo., (2-0) vs. Bellingham, Wash. (2-0). 9:45 p.m. — Brandon, Neb. (2-1) vs. Wichita Glass (2-1).

BAD DAY FOR CHAMPIONS—George Haggarty, the defending champion from Grosse Point, Mich., registers disgust on one of the Broadmoor greens Monday during his upset loss to Max Hunter of Olympia, Wash., 4 and 3. Haggarty, who was playing with an injured wrist, was the second champion to disappear in one day. Former two-time winner, Howard Creel of Colorado Springs, withdrew before the action got underway. Froehling Passes Meet To Rest Leg for Nationals

SOUTHAMPTON, N.Y. (AP)—will be out for the rest of the week.

— Frank Froehling III figured he'd use the Meadow Club international grass court tournament here this week as a tuneup for the nationals at Forest Hills next week.

Instead, Froehling has decided he will take a few days off before beginning play at Forest Hills, where he lost to Mexico's Rafael Osuna in the final round last year.

Of course, the decision wasn't entirely Froehling's doing. It took a torn ligament in his right leg, suffered in Monday's first round, to convince him.

Froehling, third ranked U.S. player from Coral Gables, Fla., and second-seeded here, was playing in the first set of his match with John Picken of Tuscaloosa, Ala., when he fell chasing a shot in the third game. Picken had won the first two games.

Froehling tore a ligament and

YA Football Registration Open for Coming Season

Information sheets and registration forms are now available for the 1964 Young America Football Program. Boys and parents who are interested in this program should pick up the information at the Colorado Springs Park and Recreation Office, 1400 N. Glen Avenue. This office is open Monday through Friday, 8:00-12:00, and 1:00 to 5:00.

In order for boys to participate in this football activity he must have permission from his parents, a physical examination within the past six months, and pay the participation fee of \$3.00 for city residents and \$3.50 for non-residents. Included in this fee is a mandatory foot-

ball group insurance policy which each boy must have. A \$1.50 uniform deposit will also be charged which is refunded when the boys return their equipment at the end of the season.

Each boy must furnish his own helmet and soft rubber soled shoes such as gym shoes or tennis shoes. Cleats of any sort will not be allowed in the Young America Program. Game jersey, football pants, and shoulder pads will be issued each boy from the Young America equipment pool.

For further information regarding the 1964 football season, contact the park and Recreation Department, 1400 N. Glen.

Yank Duo Wins Tennis Crown

CHESNUT HILL, Mass. (AP) — Dennis Ralston and Chuck McKinley, the young men who returned the United States to world tennis supremacy, are one-third of the way home toward an impossible goal.

"Mission one-third accomplished," shouted the 22-year-old Ralston after he and McKinley defeated the Australian duo of Mike Sangster and Graham Stilwell 6-3, 6-2, 6-4 Monday and captured their third National Doubles Tennis Championship.

"Our goals for the summer," Ralston said, "have been this — win the national doubles and retire the cups. Then Forest Hills."

That's where the quest becomes impossible.

"Naturally we can't both win the singles, but we'll both be trying," Ralston said. "One of us should win it. One of us should have last year. Chuck hurt his back and lost to (eventual winner Rafael) Osuna. That wouldn't happen again. I had a bad match against Ronnie Barnes. I'm playing much better this year."

"Then here's the Davis Cup. We've got to show that it was no fluke in Australia, by keeping it."

"You know what the pattern has been — an American team wins it about every five years and the Aussies come over and take the Cup right back a few months later."

"We want to keep it a while."

McKinley, 23, and Ralston, 22-year-old Southern California student, were the key factors in the United States' Davis Cup triumph a year ago and are the principal figures in the defense against the winner of the Sweden-Australia interzone match in Cleveland next month.

The ease with which they dispatched the Britons—the first English pair to reach the finals since 1903 — indicated they were ready. Neither lost his serve or was in danger of doing so.

"They were too much for us—overwhelming," Sangster said. "I've never seen Chuck and Dennis better together."

It was the third doubles championship for the two—previous victories came in 1961 and 1963—and retired the silver bowl emblematic of the championship. The last duo to win three were Bill Talbert and Gardnar Mulloy, who won their third title in 1946.

"Denny and I are at the top of our games," said McKinley, who plays out of San Antonio, Tex. "There's no reason we should slip before the challenge round. Thinking about the challenge round is enough to keep you up."

"I'm taking this week off," McKinley continued. "My back has held up fine since I kicked up in Australia last December. I think it's because I'm pacing myself, taking a week off here and there instead of playing the entire circuit."

Ralston moved on to Southampton, N.Y. for the Meadow Club Invitational, where he's top-seeded.

Birds Rest As Chisox Lose One

BALTIMORE (AP) — The Baltimore Orioles gained ground while standing still.

While enjoying an off-day Monday, the Orioles extended their American League lead to two games as the runner-up Chicago White Sox dropped a 4-3 decision to the Minnesota Twins.

In addition, outfielder Boog Powell's wrist injury was diagnosed as more like a sprain with a small chip.

"Boog definitely will not go on the 30-day disabled list," said General Manager Lee MacPhail of the Orioles. "In fact, we think he might be able to play within 10 days to two weeks, depending on how he feels."

"It's not a question now of waiting for the injury to heal, but for the pain to subside enough that he can swing and control the bat. In the meantime, he'll get in his running and therapy treatments."

Powell said his left wrist was tender when the cast was taken off, but he promised to return soon.

"I'll probably be able to tell better by the end of the week when I'll be able to play," Powell said. "The doctors say that when I'm okay, I can play—that my wrist will heal regardless of what I do."

Boog will miss the four-game weekend series with the White Sox, but the Orioles did all right without him last weekend by sweeping three of four from Chicago.

HERRING KILLED—Gordon Herring, veteran auto racer from Golden, Colo., died Monday in St. Mary's Hospital in Rochester of injuries suffered Sunday when his Offenhauser flipped four times at the Teale County Fairgrounds dirt track. Lou Groza Remains Browns Kicking Pro

By THE ASSOCIATED PRESS

There were 28 seconds remaining on the clock, Cleveland's Lou Groza calmly lined up his field goal attempt with the Browns trailing the Los Angeles Rams 28-27 in the National Football League championship game.

As Groza approached the ball for the all-important kick, on the sidelines, the Browns already were heaving their helmets in the air in a sign of victory.

That was 13 years ago, and Groza justified the Browns' confidence, kicking the winning field goal.

Once again, Monday, the Browns expressed their confidence in Groza, now a 40-year-old veteran of 18 professional football seasons, by trading rookie kicking specialist Dick Van Raaphorst to the Dallas Cowboys for an undisclosed draft choice.

There had been speculation that Van Raaphorst, a 10th round draft choice from Ohio State tutored by Groza, would replace his teacher as the Browns extra point and field goal kicker.

"I feel good this year and will play as long as I can," said Groza. "I never work on the principle of leaving."

"I'll probably be around until they sweep me out."

They may never sweep him out of the record books.

The alltime leading scorer in league records and his seniority as a pro dates back to the original Browns of the now defunct All-American Conference.

Groza will be shooting to hit the 1,000-point mark in his NFL career this season. He has scored 987 points on 176 field goals, 543 extra points and one touchdown.

The touchdown came on a pass from Otto Graham in 1950 on a since outlawed tackle eligible play.

One other trade was concluded during the day as the 22 pro football clubs trimmed their squads to get down to the 45-player limit by the Tuesday deadline.

The Green Bay Packers reduced their squad below the limit by trading veteran defensive lineman Urban Henry to the Pittsburgh Steelers for a future draft choice.

Other moves:

NATIONAL LEAGUE

Minnesota — Cut receivers Bobby Reed of Pacific, Fred Murphy of Georgia Tech, Don Karns of Oklahoma State and Jim Boylan of Washington; defensive back Bruce Zellmer of Winona, Minn. State, and linebacker Lonnie Warwick of Tennessee Tech.

Baltimore — Cut lineman John Paglio of Syracuse and placed linebacker Butch Maples of Baylor on the injured reserve list.

San Francisco — Asked waivers on quarterback Lee Grosscup of Utah, offensive tackle Clyde Brock of Utah State, defensive tackle Bob Brown of Arkansas A&M and linebacker Mike Ruiz of Adams, Colo. State; cut back Bobby Waters of Presbyterian, defensive end Roy Williams of Pacific and linebacker Floyd Dean of Florida.

AMERICAN LEAGUE

San Diego — Placed receiver Bud Spicer of Wyoming on waivers, placed defensive end Kenny Dell of Mississippi on reserve list, placed defensive back Leslie Duncan of Jackson, Miss. State on injured-deferred list.

Hogans Upset Benardo's Softballers

The Navajo Hogan softball team pulled a major upset by handing the defending champion Benardo's its first defeat in the winners' bracket division of the City Softball Championships Monday night at Memorial Park.

Behind the pitching of Bob Gieck, the Hogans limited the Benardo's bombers to three runs as Hogans topped the defending champs, 4-3. In Monday's opener, the Lorig's softballers stormed past the DCA Mets, 10-3 to qualify for a semi-finals berth in the losers' bracket tonight against Benardo's at 7 p.m. on diamond 3.

The winner of the Lorig's-Benardo's game tonight meets Navajo Hogan in the finals Wednesday night at 7 p.m. for the championship. The Hogans are undefeated and the winner of the Lorig's-Benardo's game would have to defeat the Hogans to force the championship into a second playoff game which would be played that same night at 8:15 p.m.

In the Church-Industrial Tourney, the AT&T squad advanced to the winners' semi-finals with an 8-5 triumph over Bethany Baptist Monday night. In the opener Monday night, the Village Christian nine downed the Phil Long Ford team, 7-3.

Tonight's slate calls for two games at diamond 4. The First Christian team takes on Bethany Baptist in the opener at 7 p.m., followed by the AT&T-City Utilities game at 8:15 p.m. The winner of the AT&T-City Utilities game will earn a spot in the championship finals which is scheduled for Thursday night at 7 p.m.

Falcon Grid Team Opens Practice Drills at AFA

The 1964 Air Force football team started playing for keeps Monday at the Academy as Coach Ben Martin greeted 65 varsity hopefuls for the start of contact drills.

A 54-player contingent actually launched the '64 campaign last Monday, as the Falcons spent a week at Oxnard AFB, Calif., just outside of Los Angeles. While in California the Cadets worked exclusively on conditioning and are in top physical condition for the heavy work this week.

Said Coach Ben Martin, "We had a very good week of work we practiced twice a day, and the staff feels that we accomplished everything we set out to do."

All-America candidate halfback Dick Czarnota and a linebacker Wendy Harkleroad were elected co-captains for the coming season. Czarnota, a powerful 206-pound halfback from Detroit, Mich., is the team's top power runner, backfield blocker and pass catcher. Although he does everything well, "Zot" will see action primarily as an off-fender.

Harkleroad, a two-year letterman guard, was switched to center and linebacker during spring practice, a move he made with ease. A 202-pound native of Whitwell, Tenn., Harkleroad is one of the strongest players on the squad, and will see action primarily as a linebacker.

Daily practice will be at 4 p.m., on the athletic fields directly behind the Cadet Gymnasium. The first week of practice will be climaxed by the annual press day activities on Saturday. The team will don game uniforms and parade before the cameras at 11:15 Saturday morning.

Martin plans to platoon this year's team as much as possible with units playing either offense or defense, with all hands checked out in going the "other way." Nineteen lettermen are back from last year's squad with several key players reporting with some valuable added poundage.

Said Martin, "I was real pleased to see that nearly every player reported to Oxnard in fine shape and ready to go. And many of our veteran players are a little bigger than last year. We should be about as big this year as we would ever expect to be."

Sophomore tackle Gerry Twardowski, expected to be a stalwart in the defensive line,

round draft choice from Ohio State tutored by Groza, would replace his teacher as the Browns extra point and field goal kicker.

"I feel good this year and will play as long as I can," said Groza. "I never work on the principle of leaving."

"I'll probably be around until they sweep me out."

They may never sweep him out of the record books.

Wild Pen Hand Switches To Steady Plate Work

By MIKE RATHET
Associated Press Sports Writer

Rico Carty of the Milwaukee Braves admits he was a bit over-anxious about breaking into organized baseball.

He signed with just about every club in the Dominican Republic. And with San Francisco. And Cincinnati. And he had his runaway pen in hand, ready to sign with St. Louis, when Milwaukee protested.

But the Braves haven't protested since.

A 24-year-old outfielder making a bid for Rookie of the Year honors in the National League, Carty slammed five straight hits — a homer, three doubles and a single — as the Braves walloped the first-place Philadelphia Phillies 12-9 Monday night.

Carty has hit like that in the Braves' chain ever since they took his ink well away by appealing to the late George Trautman, then the president of the minors.

Seems that Carty — "I was just a kid and I didn't realize what I was doing" — had signed with the Estrellas club in the Dominican Republic before wedding his pen for the Giants and Reds. The Estrellas club had sold Carty to the Braves.

Against the Phillies, Carty doubled in the first, singled in the second, homered in the fourth and doubled in the fifth and the seventh, lifting his average from .312 to .323 with the spurt while bringing his home run output to 13 and his runs batted in total to 56.

Carty, who has been overshadowed in his bid for rookie honors by the Phillies' Richie Allen, has no less impressive credentials. Allen, who has played in 30 more games, is hitting .314 with 23 homers and 66 RBI.

The loss trimmed the Phillies' lead to 6½ games over the San Francisco Giants, who broke a tie for second place with Cincinnati by defeating the Los Angeles Dodgers 4-2. In other NL action, St. Louis whipped Pittsburgh 5-1 and Houston blanked the Chicago Cubs 2-0.

The Chicago White Sox, meanwhile, lost an opportunity to gain ground on American League leading Baltimore, falling two games behind the Orioles after a 4-3 loss to Minnesota in the only game on the schedule.

Wes Covington supplied most of the fireworks for the Phillies, driving in six runs with two homers and a pair of doubles. Clay Dalrymple also homered for Philadelphia.

The Giants put it away against the Dodgers in the first inning with a four-run outburst helped along by Tommy Davis' error on a Willie Mays liner. That produced one run, a grounder by Orlando Cepeda drove in the second and Jim Hart finished things up with a two-run homer.

Two Rookies in New York Lineup

PEEKSKILL, N.Y. (AP) — Rookie fullback Matt Snell and rookie linebacker Ralph Baker will be in the starting line-up of the New York Jets for their AFL exhibition game Saturday night against the San Diego Chargers at Atlanta.

Coach Weeb Ewbank announced the move Monday after the Jets had a light workout here following Saturday night's exhibition 21-20 victory over the Boston Patriots.

Snell gained 177 yards on 20 carries in that game.

Greer, Pring Wins Golf Tourney

Carmon Greer and his guest, Roy Pring of Valley Hi Country Club, won the second annual Colorado Springs Country Club Golf Tournament with a combined total of 327 shots.

In second place was last year's winners, Wally Hague and guest, Ralph Gibson of Denver.

Three teams tied for third. They were Winslow and Williams, Beyer and Beyer, Kohler and Bartlett.

Starting the last day's play Greer and Pring were four shots ahead of the field and proceeded to pull away and win the tournament by eight shots.

The 3-day tournament combined two days of medal play less handicap with one day of best ball between the teams.

Hague and Jack Might, Broadmoor's fine golfer, shared medalist honors with gross scores of 223.

In the first flight Bob Finney and Jerry Wagner were the winners with a net of 354.

Must of this flight was bunched at the top with five teams either tied or separated by only one stroke on the last day's play. Taking second place were Dr. Ken McKinnis and guest, Dr. Jim Altemer. In third place were Charles Towner and guest, Kenny Bruns. F. J. Schumaker who had a hole-in-one on opening day was the lucky golfer to win the final prize of a \$51 gold-plated putter.

U.S. Atom Subs Will Be Visiting Japan

TOKYO (AP) — U.S. nuclear-powered submarines this year will be allowed to make their first visit to Japan, Foreign Minister Etsusaburo Shiina said today.

The United States has repeatedly pressed the Japanese for docking privileges for the subs, but the government has deferred a decision, saying it wanted to study safety factors.

Leftists have charged that the United States wants to use the port calls to introduce nuclear weapons into Japan.

ROBERT COLE
Republican Candidate for
COUNTY JUDGE

The Republican Primary Election will be held on September 8, 1964. I need your vote in seeking one of two designations as a candidate for County Judge.

I have substantial support from members of the local bar association who wish to see a competent practicing attorney as a County Judge; but, the new County Court will not be for the sole use of attorneys but will be used by all the citizens of this county.

If nominated and elected, I pledge that I will serve you diligently and with dignity.

Your vote for one of two County Judges will be appreciated.

Salesmanship, Not Needs Supports Most of Economy

By SAM CAMPBELL

The difference between what a man really needs and what he thinks he needs is the province of salesmanship.

If a man has enough clothes on his back to keep from freezing to death and 500 calories of tortillas under his belt, he can survive.

So if you divided the prevailing economy between need and salesmanship, you would find that the share based on pure need wouldn't amount to much, relatively speaking.

It's the salesman who persuades the one - suit man that he ought to have two suits, or the one - car family that the housewife really ought to have her own transportation. I grant you that the salesman's persuasion may take place indirectly. For instance, he may have sold the family next door to you that extra car, but the persuasion on you is there just the same.

When you get to thinking about it, the Socialist philosophy that offers to each man according to his need doesn't offer very much. For the fact is a person doesn't need very much.

We chuckle when we hear a fictional economy described as "everybody taking in everybody else's washing." But actually that description is not as far - fetched as you might suppose at first.

Only, instead of each taking in the other's washing, here is what really happens: one makes the washing machine, another manufactures the soap, yet another transports the water, still another fabricates the clothing, and somebody else makes the cloth from which the clothing is made and another somebody digs the coal to turn the loom and so forth.

That is the economy in miniature.

You might wonder where the money comes from that allows the family to buy the washing machine in the first place. If you wished to go to the trouble of tracing it back step by step to the very beginning, you would discover that the very manufacture of the washing machine created the buying power necessary to the sale of the washer.

But the point is that practically everything gets back to the fact that some individual in the community was able to persuade some other individual that a washing machine would be a useful instrument for him to have.

The more salesmanship you have, the more the economy can expand; more people have more jobs, the real wages are higher.

Among the factors that multiply salesmanship, two are of outstanding importance. One is the incentive for the salesman, including a favorable tax treatment of income, and the other is the ability of the salesman himself.

How does the ability of the current crop of salesmen measure up to what it can be? In order to get some kind of an answer to that question, I am going to pay calls on a number of retail stores. Then I

Deaths

CHICAGO (AP) — Harrison B. Roberts, 61, former Associated Press war correspondent and photographer, died Monday in a Chicago hotel. Following assignments for the AP in wartime northern Ireland and Tunisia, Roberts joined the State Department and served for six years in South America. At his death, he was working for military publications.

TRENTON, Mo. (AP) — Mrs. Burleigh Rines, 56, wife of the Hall of Fame baseball pitcher, died of a heart attack Monday. Her husband is a scout for the Baltimore Orioles.

WEST HARWICH, Mass. (AP) — N. S. MacNeish, 64, former assistant publisher and business manager of the New York World-Telegram & Sun, died Monday of a heart attack. MacNeish, a native of Scotland, joined Scripps-Howard Newspapers in 1922, held several executive positions and retired last July.

PHILADELPHIA (AP) — Harold Hadley, 66, a prominent journalist who wrote for newspapers in Denver, New York, Chicago and Philadelphia, died Monday in the Einstein Medical Center. At his death, he was an assistant city editor for the Philadelphia Daily News.

HANOVER, N.H. (AP) — Charles E. Griffith, 71, retired music publisher of Norwich, Vt., died Monday. Griffith retired in 1957 as vice president of Silver Burdett Co., textbook publishers, then served until 1960 as book committee chairman of President Eisenhower's People-to-People program.

Independence Seen For South Rhodesia

LONDON (AP) — Prime Minister Sir Alec Douglas-Home was reported gravely worried today that Southern Rhodesia's all-white government may attempt to seize independence early in October.

Aides said reports from Southern Rhodesia indicate some form of unilateral and illegal action is being contemplated to thwart London's plan for giving Negroes a voice in the Southern Rhodesian government.

The matter is to be thrashed out at a meeting scheduled in London on Sept. 7-8 between Douglas-Home and Ian Smith, premier of Southern Rhodesia.

A senior official of the British government commented: "The prime minister certainly will use all the authority and influence at the command of the government to make Ian Smith fully aware once again of the dangers of a 20th century Boston tea party."

CROWDED HARBOR

Hong Kong's crowded harbor holds some 138,000 people who live on sampans and junks. They long have been considered a group apart. Known as the Tankas, Chinese law for centuries forbade them to settle ashore, marry landowners or work for the government.

Farmers Group Continues Cattle Withholding

By CHAD SKAGGS

CORNING, Iowa (AP) — Housewives were paying higher prices for meat in some cities today as the National Farmers Organization continued to withhold cattle from markets in 23 states.

Meat on the hoof was bringing the highest prices in more than a year for those who did sell.

However, receipts were down at major markets as the holding action entered its fifth day. Midwest packing plants were laying off employees.

NFO President Oren Lee Staley at the organization's national headquarters here said retail price increases at this stage would be unjustified.

He said it appeared that "retail outlets will take unfair advantage of the situation and raise prices toward the end of the week."

Sporadic incidents of violence occurred as truckers tried to deliver meat animals despite the holding action.

In Boston, two grocery chains — First National Stores and Stop and Shop — said meat prices are likely to go up later this week.

Retail price boosts of three to six cents a pound on pork loins were reported at Evansville, Ind.

NFO members massed at many marketing places Monday to try to talk truckers out of delivering animals.

The announced NFO policy is to hold out for its price goals of \$22.75 a hundredweight for No. 1 and No. 2 hogs, \$32.45 for choice beef cattle and \$29.45 a hundredweight for sheep. It seeks contracts guaranteeing these prices, the same goal as in 1962 when it conducted a 33-day holding action.

Prices for hogs reached \$20 at Chicago and Indianapolis and \$19.25 at Omaha Monday. Prime steers brought \$28.50 at Chicago, \$27.50 at Omaha and \$27 at Indianapolis.

At Charlotte, Mich., about 200 NFO members met farmers bringing their stock to a weekly auction Monday and persuaded some not to sell. The usual turnover was believed cut about 60 per cent.

Milwaukee police said a shot was fired at a suburban intersection where pickets stopped a truck, but there was no agreement on whether the driver or a demonstrator fired it. No one was hit.

The Winona County, Minn., sheriff's office said a trucker reported a shot fired at his truck Monday near Winona. It was not hit.

A crowd of about 200 persons turned away three trucks carrying hogs to the National Tea Co. packing plant at Fergus Falls, Minn.

Iowa NFO President Earl Riediger consulted with Staley and canceled his call for a repeat Monday of Sunday night's demonstration at Sioux City.

There were reliable reports that NFO officials feared the demonstration would be infiltrated by persons trying to cause violence and embarrass the organization.

Hydride Food Products Corp. in Indianapolis began layoffs with General Manager James E. Kane citing a "sharp decline in receipts of livestock."

Rath Packing Co. announced plans to curtail operations at Waterloo and Columbus Junction, Iowa. Elliott Packing Co. of Duluth and Wilson & Co. at Albert Lea, Minn., have laid off workers.

A spokesman for J. C. Lovas, a Milwaukee meat packer, said "we're in trouble. This time it looks as though the farmers mean to go through with it."

CABIN SITE WINNER—Larry Heltzel, 702 West Pikes Peak is the happy recipient of a one-half acre cabin site given away by Colorado Mountain Estates during their open house and free lot drawing held August 16th. Defendants.

THE PEOPLE OF THE STATE OF COLORADO To the above-named defendants, GREETING:

You are hereby summoned and required to file with the Clerk of the County of Denver, Colorado, in twenty days after service of this summons upon you. If you fail to do so, judgment by default will be taken against you for the relief demanded in the Complaint.

If service upon you is made outside the State of Colorado, or by publication, or if a copy of the Complaint is not served upon you with this summons, you are required to file an answer to the Complaint within thirty days after service of this summons upon you.

This is an action brought to quiet title to the following described real estate:

PARCEL A: Situate in the City and County of Denver and State of Colorado, to wit:

(a) All that portion of Block 1, West Denver, lying north and east of the alley dividing said Block 1;

(b) That part of Lot 8, Block 242, West Denver, described as follows: Commencing at the northeast corner of said Lot 8, thence southeast along the boundary line of said Lot 8 facing the alley in Block 242, a distance of 33.053 feet, thence in a southwest direction to a point on the boundary line of said Lot 8 facing 13th Street, which point is a distance of 33.053 feet southeast of the northwest corner of said Lot 8, thence northwest along said boundary line to the northwest corner of said Lot 8, and thence in a northeast direction to the point of beginning.

PARCEL B: Situate in the County of El Paso and State of Colorado, to wit: Lots 6 and 7, and the S4 of Lot 8 of Matt France's Subdivision of Block 237 in Addition Number 1 to the City of Colorado Springs, Colorado, and for further relief as more fully set forth in the Complaint on file in this cause, to which reference is hereby made for greater certainty.

DATED this 3 day of August, 1964.

(s) Frank H. Conry, Clerk of said Court.

K H Lucille Ball To Enter New Radio Career

By CYNTHIA LOWRY

HOLLYWOOD (AP) — Lucille Ball, who needs another job like a centipede needs another leg, is on the threshold of a new career — radio. Starting on Labor Day, Lucy will preside over a 10-minute week-day program called "Let's Talk with Lucy" on CBS.

Already the star of a popular CBS television series and president of the enormous, multimillion-dollar Desilu productions — which owns the biggest studio complex in Hollywood — Lucy is working on the new project with the enthusiasm of a cub reporter on a first big assignment.

She carries a tape recorder wherever she goes, just in case she runs into someone or something interesting. The other day she grabbed an interview with busy Bob Hope as she trotted beside him on a walk between his dressing room and a set.

She has already taped interviews, some two- and three-part sessions with famous friends and colleagues including Bing Crosby, Jack Benny, Danny Kaye, Dean Martin and his wife, and others.

The public, which has long known and loved Lucy Ricardo and Lucy Carmichael, will be meeting a third — the real one, Lucille Ball Morton.

"I've always liked radio," the red-haired comedienne said, "but I'd sort of forgotten what a really important thing it is to so many people. Last spring when I was in Virginia a lot of people asked me why I never was on radio. I said that I was on television — but they said it wasn't the same thing."

The subject of a daily radio show was broached after Gary Moore (who had a daily radio show on CBS for years) decided on a broadcasting sabbatical.

Gary Morton, Lucy's husband, will join her often on the program, and is, in addition, producing the series.

The three major television networks, which have invested millions of dollars and deployed tons of equipment and transported their top broadcasters, now are busily attempting to drum up suspense and excitement over the forthcoming Democratic National Convention starting Monday in Atlantic City.

Political leaders will be popping up for interviews all over the channels during the week-end, the New Jersey resort city's boardwalk will be getting first degree burns from camera exposure, and salt water taffy (a confection which is to Atlantic City what beans are to Boston) will be the subject of the innumerable jokes about pulling out tooth fillings.

Conventions, like beauty contests, have aficionados among television viewers even when there is not a great deal of built-in suspense about the ultimate outcome.

Typhoon Kathy Downgraded to Storm

TOKYO (AP) — Typhoon Kathy was downgraded to a tropical storm today after battering the southern Japanese island of Kyushu where 13 persons were reported killed and more than 4,000 left homeless.

Six persons were reported missing. Twenty-six others were injured by landslides and flooding.

The U.S. Armed Forces Joint Typhoon Warning Center in Guam reported that Kathy was 242 miles northwest of Tokyo, moving northeast at 21 miles an hour.

Administration Clashes With GOP On Foreign Policy

By HARRY KELLY

WASHINGTON (AP) — In a political battlefront ranging from Capitol Hill to the Pentagon the Johnson administration clashed anew with Republicans over its Southeast Asian and defense policies.

The fresh outbreak of sharp skirmishing reinforced belief the presidential campaign, still not officially under way, may turn into a long, hot autumn.

The Defense Department and Senate Democratic Leader Mike Mansfield led the administration counterattack last week. And GOP congressional leaders accused the government of pursuing a "no win" policy in south Viet Nam in an effort to postpone tough decisions until after the election.

The Pentagon issued a long statement challenging in detail data and statements of GOP presidential nominee Barry Goldwater on future U.S. nuclear capability.

Then, Goldwater repeated and elaborated on his previous charge that if present defense policies continue American "deliverable nuclear capacity may be cut by 90 per cent" in the 1970s.

"It is false and, if the senator would trouble to inform himself, he would learn that it is false," the Pentagon retorted in its statement, which it said was issued after consultation with the Atomic Energy Commission.

"The senator's method," the statement continued, "seems to be that of taking newspaper guesses of warhead yields and bomber loads as facts, and then subtracting all our bombers. Quite aside from the fact that this is a most casual method of dealing with a very complex problem, it is a method which has led to a false conclusion."

Goldwater has argued that the administration is phasing out manned bombers in favor of missiles, which Goldwater said carry much lighter nuclear loads than bombers.

He cited newspaper reports of nuclear capacities which he said were not quite correct but were usable for comparison purposes.

The Pentagon denied as "wholly unjustified" that manned bombers are to be phased out.

"Our forward plans now go

through fiscal year 1972," the Pentagon said. "These plans include large numbers of strategic bombers at every stage. The plans also include a bomber deliverable megatonnage which is highly classified, but substantially greater than the senator's statement implies."

GOP leaders in the Senate and House, Sen. Everett M. Dirksen and Rep. Charles A. Halleck, followed up the Goldwater blasts at the administration with one of their own.

Their statement, read at a news conference, contended "there has been no satisfactory explanation" why the President announced the U.S. naval air strikes at the North Vietnamese

PT boat fleet before the attack was under way. Two U.S. planes were shot down.

Both Dirksen and Halleck said the South Viet Nam war "continues to go from bad to worse" and is beginning "to resemble the incredible 'no-win' war fought in Korea more than a decade ago."

In the Senate, Democratic Leader Mansfield was getting in some whacks of his own. He accused Goldwater of making "gross distortions" about the nation's nuclear capacity and of an "offhand interpretation" of administration orders to the 7th Fleet during the Gulf of Tonkin crisis.

Goldwater had said Johnson's orders could be read as giving authority for use of nuclear weapons. Johnson and other officials denied this, calling the senator's statement reckless and irresponsible.

"It is one thing for a presidential candidate to announce that he will delegate to military commanders the most profound responsibilities of the office he seeks even before he is elected to it," Mansfield said.

"But it is quite another matter for a presidential candidate to say to the nation and to the world that the incumbent President has already done so."

"That," Mansfield added, "is disingenuously dangerous."

Perle Mesta Gives Party at Atlantic City

By FRANCES LEWINE.

ATLANTIC CITY, N.J. (AP) — Perle Mesta's opening convention party proved more fun outside than inside as hundreds came to gawk.

It was something like a big block party as neighbors, tourists, and some nuns clustered around Sunday night to watch the famous Washington party-giver give a party.

Perle didn't have too many VIP's to show them, but she came out on the steps of her rented villa a few times to wave to her 600 to 700 fans and give them a big smile.

"Hi, Perle," some shouted across the street to the hostess in her pink organdy coat over a baby blue sequined party dress. She wore a pale blue bow in her gray hair.

Perle invited some 200 guests, mostly the same Capitol Hill, White House (but not the Johnsons), Georgetown folks she has to her parties in her Washington penthouse apartment.

The biggest crowd pleaser was actress Carol Channing, star of the Broadway musical "Hello Dolly," who arrived wearing a black chiffon flapper-era dress with hipline band of glittering rhinestones. She wore rhinestone buckles on her black shoes and topped the costume with a dramatic high stovepipe hat of white satin.

Miss Channing is here to introduce a new campaign song — "Hello Lyndon" — at a Wednesday convention party. But at Perle's, she just said "Hello."

Perle's party was one of the first on the convention circuit and she plans one a day throughout the sessions.

Minibuses marked "Perle's Party Line" helped transport guests over the 15-minute drive to her villa in neighboring Ventnor.

Mrs. Mesta, former U.S. minister to Luxembourg, attracted — and invited a big turnout of television cameramen, who even pushed a big camera eye at a front window to record the scene.

Inside, everyone was jammed in the four-room, ground floor layout which Perle had prepared for the onslaught by removing about all the furniture except the glittering chandeliers.

She added a few imported rock waterfalls, bubbling with water and flanked by artificial flowers.

There was plenty to eat and drink, including Italian meatballs and ziti.

The watchers outside, some of whom served a party buffet on their own porches, were far cooler than Perle's guests. They got the ocean breezes, while it got hotter and hotter inside.

Who Really Gets Soaked By Soaking Other Fellow?

By SAM CAMPBELL

Why is it that so many millionaires — especially those occupying tax-supported offices — proclaim "soak the rich" doctrines?

Certainly, you would suppose that if millionaire office holders really do believe that the people's having money is a great evil they could start the reformation by giving up their own. That would demonstrate their sincerity beyond all question.

One possible explanation of the millionaire-versus-money phenomenon is that the rich office holders, lacking any specific convictions, are willing to adopt any doctrine that seems likely to give them political power at any particular time for any particular area.

That could be. But a later revelation sheds additional light on the point. The new dawn is that "soak - the - rich" measures do not really soak the rich, in spite of all claims and in spite of all appearances of the contrary, notwithstanding.

For instance, the Liberty Amendment (repeal the personal income tax) people have discovered that the lowest-income bracket accounts for five-sixths of revenues derived from individuals. (U.S. News & World Report, May 25, 1956, page 63).

What is happening in other words is that "soak the rich" in practice turns out to be "soak the wealth" that is in the possession of the multitude.

It is the very rich who can hire the attorneys and the accountants to set up the tax-free foundations. The non-rich have to accept what the tax man tells them to pay; they can't afford to fight it.

More illumination on who really gets soaked by soak-the-other-guy legislation comes in a study of the West German recovery. The study was made by Professor Frederick G. Reuss and was published by John Hopkins University.

A review of the work by the American Institute for Economic Research (Aug. 3, 1964) points out that the German economists recognized that the working people have the significant buying power in an open economy.

The West German government, therefore, rigged the tax rate to discourage spending on consumer items and to encourage savings for capital tolls. This "combination of repressed consumption and forced-fed investment" certainly is not in accord with freedom and did deprive the working people for a time.

The point to be made here is that, in an economy such as ours, it is now definitely established that the people have the vast bulk of the buying power. That buying power happens to be the sponge that absorbs most of the punishment from the so-called "soak-the-rich" legislation.

Perhaps this helps to understand the motivation of so many of the anti-money millionaires.
